Factory Miriam Greenberg, Penny Lewis, 2017-06-06 Urban public spaces from the streets and squares of Buenos Aires to Zuccotti Park in New York City have become the emblematic sites of contentious politics in the twenty first century As the contributors to *The City Is the Factory* argue this resurgent politics of the square is itself part of a broader shift in the primary locations and targets of popular protest from the workplace to the city This shift is due to an array of intersecting developments the concentration of people profit and social inequality in growing urban areas the attacks on and precarity faced by unions and workers movements and the sense of possibility and actual leverage afforded by local politics and the tactical use of urban space Thus the city from the town square to the banlieu is becoming like the factory of old a site of production and profit making as well as new forms of solidarity resistance and social reimagining We see examples of the city as factory in new place based political alliances as workers and the unemployed find common cause with right to the city struggles Demands for jobs with justice are linked with demands for the urban commons from affordable housing to a healthy environment from immigrant rights to urban citizenship and the right to streets free from both violence and racially biased policing The case studies and essays in *The City Is the Factory* provide descriptions and analysis of the form substance limits and possibilities of these timely struggles Contributors Melissa Checker Queens College and the Graduate Center of the City University of New York Daniel Aldana Cohen University of Pennsylvania Els de Graauw Baruch College City University of New York Kathleen Dunn Loyola University Chicago Shannon Gleeson Cornell University Miriam Greenberg University of California Santa Cruz Alejandro Grimson Universidad de San Mart n Argentina Andrew Herod University of Georgia Penny Lewis Joseph S Murphy Institute for Worker Education and Labor Studies City University of New York Stephanie Luce Joseph S Murphy Institute for Worker Education and Labor Studies City University of New York Lize Mogel artist and coeditor of *An Atlas of Radical Cartography* Gretchen Purser Maxwell School of Citizenship and Public Affairs Syracuse University

Urban Histories of Science Oliver Hochadel, Agustí Nieto-Galan, 2018-09-20 This book tells ten urban histories of science from nine cities Athens Barcelona Budapest Buenos Aires Dublin 2 articles Glasgow Helsinki Lisbon and Naples situated on the geographical margins of Europe and beyond Ranging from the mid nineteenth to the early twentieth centuries the contents of this volume debate why and how we should study the scientific culture of cities often considered peripheral in terms of their production of knowledge How were scientific practices debates and innovations intertwined with the highly

dynamic urban space around 1900 The authors analyze zoological gardens research stations observatories and international exhibitions along with hospitals newspapers backstreets and private homes while also stressing the importance of concrete urban spaces for the production and appropriation of knowledge They uncover the diversity of actors and urban publics ranging from engineers scientists architects and physicians to journalists tuberculosis patients and fishermen Looking at these nine cities around 1900 is like glancing at a prism that produces different and even conflicting notions of modernity In their totality the ten case studies help to overcome an outdated centre periphery model This volume is thus able to address far more intriguing historiographical questions How do science technology and medicine shape the debates about modernity and national identity in the urban space To what degree do cities and the heterogeneous elements they contain have agency These urban histories show that science and the city are consistently and continuously co constructing each other

The Poor's Struggle for Political Incorporation Federico M. Rossi, 2017-09-01 This book offers an innovative perspective on the ever widening gap between the poor and the state in Latin American politics It presents a comprehensive analysis of the main social movement that mobilized the poor and unemployed people of Argentina to end neoliberalism and to attain incorporation into a more inclusive and equal society The piquetero picketer movement is the largest movement of unemployed people in the world This movement has transformed Argentine politics to the extent of becoming part of the governing coalition for more than a decade Rossi argues that the movement has been part of a long term struggle by the poor for socio political participation in the polity after having been excluded by authoritarian regimes and neoliberal reforms He conceptualizes this process as a wave of incorporation exploring the characteristics of this major redefinition of politics in Latin America

Fodor's Buenos Aires Fodor's Travel Publications, Inc., Sorrel Moseley-Williams, Victoria Patience, 2012 Discusses the best places to visit in Buenos Aires from a cultural and historical point of view and identifies the best shopping centers nightlife spots restaurants and accommodations the city has to offer

On Argentina and the Southern Cone Alejandro Grimson, Gabriel Kessler, 2014-04-23 This book considers how globalization is impacting contemporary Argentina via regional trading blocs through migrations across its borders and through the emerging transnational border regions that it shares with other Latin American nations Overshadowing all of these trends is the current crisis brought on by both international financial institutions possessing an increasing say over how the country is run and internal elites trying to use Argentina's integration into the world financial system to their own advantage Argentina has long imagined itself as a European nation qualitatively different from its Latin American neighbors But recent events are forcing it to change its perception of itself As the size of Argentina's transnational community continues to swell and as the nation continues its financial and social implosion Argentinians are being forced to re imagine the nation as being Latin American replete with the histories and problems of that part of the world
