CHEUNG, 2021-11-01 Hong Kong under British rule was a prime example of exceptionalism in many aspects economic political and even social It was governed under a colonial structure and yet had enjoyed a large degree of social and economic freedom as well as fiscal self sufficiency and autonomy from London After returning to Chinese rule in 1997 Hong Kong has continued to thrive as a relatively resilient city state still known for efficiency and effectiveness despite tensions and scepticism about its political future This book carries decades of academic observations and the author's personal political experience It reviews and reflects on the past trajectory of governance and administration identifying strengths and capabilities as well as constraints and vulnerabilities of Hong Kong as a polity and society while charting its course of exceptionalism within a new context and under changing conditions As this book concludes the exceptionalism of Hong Kong not only hinges on institutional arrangements and historical inheritance but also on the statecraft of the administration of the day This is a text for deep reading reflection and deliberation Professor LUI Tai lok Chair Professor of Hong Kong Studies Director of the Academy of Hong Kong Studies Director of the Centre for Greater China Studies and Former Vice President Research Development at The Education University of Hong Kong a gem whatever your political stand is you have to admire Professor Cheung's thorough observations and profound ideas on what made this city tick Mr LAM Woon kwong Former Secretary for the Civil Service and Secretary for Home Affairs and Former Convenor of Non Official Members of the Executive Council 2012-2017 a compelling addition to the literature on Hong Kong Professor Darryl S L JARVIS Professor and former Head of the Department of Asian and Policy Studies at The Education University of Hong Kong **Social Procurement and New Public Governance** Josephine Barraket, Robyn Keast, Craig Furneaux, 2015-10-23 In recent years the search for innovative locally relevant and engaging public service has become the new philosophers stone Social procurement represents one approach to maximising public spending and social value through the purchase of goods and services It has gained increasing attention in recent years as a way that governments and corporations can amplify the benefits of their purchasing power and as a mechanism by which markets for social enterprise
