Buddhism And The Arts Of Japan:

Buddhism and the Arts of Japan Richard B. Pilgrim, 1998 Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan In this carefully crafted volume Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons surveys the major debates related to that decision and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945 He then provides a historical overview of the events in question beginning with the decision and program to build the atomic bomb Detailing the sequence of events leading to Japan's surrender he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders Finally Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents scholarly books and articles

Flowing Traces James H. Sanford, William R. LaFleur, Masatoshi Nagatomi, 2014-07-14 According to the contributors to this volume the relationship of Buddhism and the arts in Japan is less the rendering of Buddhist philosophical ideas through artistic imagery than it is the development of concepts and expressions in a virtually inseparable unity By challenging those who consider religion to be the primary phenomenon and art the secondary arena for the apprehension of religious meanings these essays reveal the collapse of other dichotomies as well Touching on works produced at every social level they explore a fascinating set of connections within Japanese culture and move to re envision such usual distinctions as religion and art sacred and secular Buddhism and Shinto theory and substance elite and popular and even audience and artist The essays range from visual and literary hagiographies to No drama to Sermon Ballads to a painting of the Nirvana of Vegetables The contributors to the volume are James H. Ford, Elizabeth ten Grotenhuis, Frank Hoff, Laura S. Kaufman, William R. LaFleur, Susan Matisoff, Barbara Ruch, Yoshiaki Shimizu, and Royall Tyler Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Faith and Power in Japanese Buddhist Art, 1600-2005 Patricia J. Graham, 2007-09-30 Faith and Power in Japanese Buddhist Art explores the transformation of Buddhism from the premodern to the contemporary era in Japan and the central role its visual culture has played in this transformation Although Buddhism is generally regarded as peripheral to modern Japanese society this book demonstrates otherwise Its chapters elucidate the thread of change over time in the practice of Buddhism as revealed in temple worship halls and other sites of devotion and in imagery representing the religion s most popular deities and religious practices It also introduces the work of modern and contemporary artists who are not generally associated with institutional Buddhism and its canonical visual requirements but whose faith inspires their art The author makes a persuasive argument that the neglect of these materials by scholars results from erroneous presumptions about the aesthetic superiority of early Japanese Buddhist artifacts and an asserted decline in the institutional power of the religion after the sixteenth century She demonstrates that recent works constitute a significant contribution to the history of Japanese art and architecture providing evidence of Buddhism s compelling presence at all levels of Japanese society and its evolution in response to the needs of new generations of supporters

Shintō Victor Harris, 2001 Shinto the Way of the Gods was the religion of Japan before the arrival of Buddhism from Korea during the 6th century AD Central to Shinto beliefs are the kami animistic gods perceived in all aspects of nature They exist in the nooks and crannies of houses and inhabit streams trees and mountains while others are sacred to human activities such as agriculture and arts and crafts The principle rites of appeasing the gods considered essential to a stable society include acts of cleansing gratitude tolerance and obedience to tradition

Preserving the Dharma John M. Rosenfield, 2015 In this beautifully illustrated book eminent art historian John Rosenfield explores the life

and art of the Japanese Buddhist monk Hozan Tankai 1629 1716 Through a close examination of sculptures paintings ritual implements and primary documents the book demonstrates how the Shingon prelate's artistic activities were central to his important place in the world of late seventeenth century Japanese Buddhism At the same time the book shows the richness of early modern Japanese Buddhist art which has often been neglected and undervalued Tankai was firmly committed to the spiritual disciplines of mountain Buddhism seclusion severe asceticism meditation and ritual But in the 1680s after being appointed head of a small run down temple on the slopes of Mount Ikoma near Nara he revealed that he was also a gifted artist and administrator He embarked on an ambitious campaign of constructing temple halls and commissioning icons and the Ikoma temple soon renamed Hozanji became a vibrant center of popular Buddhism as it remains today He was a remarkably productive artist and by the end of his life more than 150 works were associated with him A major reconsideration of a key artistic and religious figure Preserving the Dharma brings much needed attention to an overlooked period of Japanese Buddhist art *Japanese Zen Buddhism and the Impossible Painting* Yukio Lippit, 2017-02-28 Zen art poses a conundrum On the one hand Zen Buddhism emphasizes the concept of emptiness which among other things asserts that form is empty that all phenomena in the world are illusory On the other hand a prodigious amount of artwork has been created in association with Zen thought and practice A wide range of media genres expressive modes and strategies of representation have been embraced to convey the idea of emptiness Form has been used to express the essence of formlessness and in Japan this gave rise to a remarkable highly diverse array of artworks and a tradition of self negating art In this volume Yukio Lippit explores the painting *The Gourd and the Catfish* ca 1413 widely considered one of the most iconic works of Japanese Zen art today Its subject matter appears straightforward enough a man standing on a bank holds a gourd in both hands attempting to capture or pin down the catfish swimming in the stream below This is an impossible task a nonsensical act underscored by the awkwardness with which the figure struggles even to hold his gourd But this impossibility is precisely the point
