Jewel in the Ashes Brian D. Ruppert, 2020-03-23 Focusing on the ninth to the fourteenth centuries this study analyzes the ways in which relics functioned as material media for the interactions of Buddhist clerics the imperial family lay aristocrats and warrior society and explores the multivocality of relics by dealing with specific historical examples Brian Ruppert argues that relics offered means for reinforcing or subverting hierarchical relations The author s critical literary and anthropological analyses attest to the prominence of relic veneration in government in lay practice associated

with the maintenance of the imperial line and warrior houses and in the promotion of specific Buddhist sects in Japan
