Buffalo People Prehistoric Archaeology On The Canadian Plains:

The Buffalo People Liz Bryan, 2005 Annotation The Native people of the Canadian prairies have been living on the land for at least 12 000 years finding sustainable lifestyles from the grasslands and the aspen parklands Our knowledge of these people is limited they had no writing no large settlements and very little in the way of lasting material things Before the arrival of Europeans they had no guns no horses and no hard metals What clues we have come primarily from the work of archaeologists sifting through the buried evidence little bits of stone bone and pottery refuse heaps and firepits ancient villages and burial sites fingerprints and prehistoric blood Liz Bryan takes the clues from decades of archaeological research and presents an immensely entertaining and informative account of these ancient people First published by University of Alberta Press in 1991 this revised and updated edition of the book features photographs maps and line drawings to help illustrate this amazing story

Aboriginal People and Colonizers of Western Canada to 1900 Sarah Carter, 1999-12-25 The history of Canada's Aboriginal peoples after European contact is a hotly debated area of study In *Aboriginal People and Colonizers of Western Canada to 1900* Sarah Carter looks at the cultural political and economic issues of this contested history focusing on the western interior or what would later become Canada's prairie provinces This wide ranging survey draws on the wealth of interdisciplinary scholarship of the last three decades Topics include the impact of European diseases changing interpretations of fur trade interaction the Red River settlement as a cultural crossroad missionaries treaties the disappearance of the buffalo the myths about the Mounties Canadian Indian policy and the policies of Aboriginal peoples towards Canada Carter focuses on the multiplicity of perspectives that exist on past events Referring to nearly all of the current scholarship in the field she presents opposing versions on every major topic often linking these debates to contemporary issues The result is a sensitive treatment of history as an interpretive exercise making this an invaluable text for students as well as all those interested in Aboriginal Non Aboriginal relations

Archaeology on the Edge Jane Holden Kelley, Brian Patrick Kooyman, 2004 Dedicated to the memory of Richard G Forbis this collection of papers presented by his students and colleagues represents more than a tribute to a pioneer and legend in Alberta archaeology The papers chosen for this collection focus on new directions in northern plains archaeological research and are a unique and topical contribution to modern archaeology

First Peoples in Canada Alan Daniel McMillan, Eldon Yellowhorn, 2004 Previous eds published under title *Native peoples and cultures of Canada*

History of the Native People of Canada James Vallière Wright, 1996-01-01 Volume two examines such developments as the replacement of the earlier spearthrower by the bow and arrow the introduction of pottery from the south the importance of communal hunting of bison on the Plains and the appearance of ranked societies on the West Coast Published in English

In Search of Ancient North America Heather Pringle, 1996-04-20 Almost unimaginably immense North America stretches from a few degrees short of the North Pole to a few degrees shy of the equator Archaeologists are now racing to unravel the mysterious past of the forgotten peoples who

once inhabited this sprawling land In Search of Ancient North America explores many of these scientists most fascinating findings as Heather Pringle chronicles her journeys among the ancient sites of Canada and the United States Her enthralling voyage of discovery uncovers the richness of now vanished cultures and illuminates the intriguing world of archaeology itself Journeying from the mosquito infested forests of the far north to the bleak deserts of the American Southwest Pringle accompanies leading archaeologists and their crews into the field At the Bluefish Caves in the northern Yukon Jacques Cinq Mars chases down clues to an Ice Age mystery at the immense geometric riddle that is Hopewell Earthworks Mark Lynott scours the countryside for vestiges of ancient village life in the thorny wilderness of the Lower Pecos Solveig Turpin deciphers the enigmatic rock art painted more than 3 000 years ago What emerges from Pringle's accounts are surprising portraits of long lost cultures the rapacious mariners of southern California who nearly wiped out one of the world's most productive ecosystems the wealthy nobles of British Columbia who wore salmon skin shoes and counted their wealth in bottles of salmon oil the powerful lords of the Mississippi River who won the adoration of their followers with a mysterious medicinal tonic Equally intriguing are the controversial new theories that the author presents on a host of subjects from the origins of art and hallucinogenic drugs to the rise of private property the identities of the earliest New World migrants and the astonishing extent of trade in prehistoric North America Complemented by superb color and black and white photographs In Search of Ancient North America blends incisive science journalism with evocative travel writing to bring the latest archaeological findings and interpretations to light Delving into the previously unmined saga of this vast continent's lost and extinct cultures this captivating book is a thrilling invitation to endless discovery Drawing on some of the latest archaeological research Pringle's book is vivid witty and responsible in a field too often filled by cranks and bores All who are curious about life in North America before the European invasion will find the book a stimulating introduction Ronald Wright author of Stolen Continents In Search of Ancient North America brings the distant past much closer and its inhabitants almost become neighbors to us once again A first rate examination of the mystery and fascination of modern archaeological research in North America Farley Mowat author of The People of the Deer Captures the essence of what archaeologists are learning about North American prehistory The book is a pleasure to read and will inspire a new awareness of the importance of the history of North America prior to European contact Bruce Trigger author of The Children of Aataentsic [The Prairie West: Historical Readings](#) R. Douglas Francis, Howard Palmer, 1992 This collection of 35 readings on Canadian prairie history includes overview interpretation and current research on topics such as the fur trade native peoples ethnic groups status of women urban and rural society the Great Depression and literature and art **The Beaver Hills Country** Graham MacDonald, 2009 This book explores a relatively small but interesting and anomalous region of Alberta between the North Saskatchewan and the Battle Rivers Ecological themes such as climatic cycles ground water availability vegetation succession and the response of wildlife and the impact of fires shape the possibilities and provide the challenges to those who

have called the region home or used its varied resources Indians Metis and European immigrants American Indian Places
Frances H. Kennedy, 2008 A guide to 366 places that are significant to American Indians and open to the public Organized
geographically the guide includes location information maps and suggestions for further reading about the sites

Ecological Indian Shepard Krech, Shepard Krech III, 1999 Krech anthropology Brown U treats such provocative issues
as whether the Eden in which Native Americans are viewed as living prior to European contact was a feature of native
environmentalism or simply low population density indigenous use of fire and the Indian role in near extinctions of buffalo
deer and beaver He concludes that early Indians culturally mediated closeness with nature was not always congruent with
modern conservation ideas with implications for views of and by contemporary Indians Annotation copyrighted by Book News
