Leviathan's Blood Ben Peek,2016-05-31 At the end of The Godless Mireea lay in ruins the dead of the city had risen as ghosts and the keepers Fo and Bau had been slain by Zaifyr The Mireeans have now fled to the city of Yeflam with the immortal Zaifyr in chains to barter for their safety With the threat of war arriving at the Floating Cities Zaifyr s trial will become the center of political games However Zaifyr is intent on using his trial to begin a new war a motive that many fear is an echo of the dangerous man he once was Ayae a young girl cursed with the gift of fire sees a chance to learn more of her powers here in the floating city but she is weighed down by her new responsibilities regarding the safety of the Mireean people Across the far ocean exiled Baron Bueralan and cartographer Orlan have arrived in the city of Ooila with some chilling cargo the soul of a dead man As the two men are accepted into the city s court they are pulled ever deeper into the Queen s web of lies and deceit All the while a rumor begins to spread of a man who has come ashore whose seemingly innocent presence threatens them all [The Law of the Whale Hunt](#) Robert Deal,2016-02-04 Whale oil lit the cities and greased the machines of the Industrial Revolution In light of its importance competition between whalers was high Far from courts and law enforcement competing crews of American whalers not known for their gentility and armed with harpoons tended to resolve disputes at sea over ownership of whales Left to settle arguments on their own whalemens created norms and customs to decide ownership of whales pursued by multiple crews The Law of the Whale Hunt provides an innovative examination of how property law was created in the absence of formal legal institutions regulating the American whaling industry in the eighteenth and nineteenth centuries Using depositions court testimony logbooks and other previously unused primary sources Robert Deal tells an exciting story of American whalers hunting in waters from the North Atlantic to the South Pacific and the Sea of Okhotsk [CyberSociety](#) Steve Jones,1995 Deals with computer mediated communication [A Dictionary of Biblical Tradition in English Literature](#) David Lyle Jeffrey,1992 Over 15 years in the making an unprecedented one volume reference work Many of today s students and teachers of literature lacking a familiarity with the Bible are largely ignorant of how Biblical tradition has influenced and infused English literature through the centuries An invaluable research tool Contains nearly 800 encyclopedic articles written by a distinguished international roster of 190 contributors Three detailed annotated bibliographies Cross references throughout [VC](#) Tom Nicholas,2019-07-09 An incisive history of the venture capital industry New Yorker An excellent and original economic history of venture capital Tyler Cowen Marginal Revolution A detailed fact filled account of America s most celebrated moneymen New Republic Extremely interesting readable and informative Tom Nicholas tells you most everything you ever wanted to know about the history of venture capital from the financing of the whaling industry to the present multibillion dollar venture funds Arthur Rock In principle venture capital is where the ordinarily conservative cynical domain of big money touches dreamy long shot enterprise In practice it has become the distinguishing big business engine of our time A first rate history New Yorker VC tells the riveting

story of how the venture capital industry arose from America's longstanding identification with entrepreneurship and risk taking. Whether the venture is a whaling voyage setting sail from New Bedford or the latest Silicon Valley startup, VC is a state of mind as much as a way of doing business, exemplified by an appetite for seeking extreme financial rewards, a tolerance for failure and experimentation, and a faith in the promise of innovation to generate new wealth. Tom Nicholas's authoritative history takes us on a roller coaster of entrepreneurial successes and setbacks. It describes how iconic firms like Kleiner Perkins and Sequoia invested in Genentech and Apple, even as it tells the larger story of VC's birth and evolution, revealing along the way why venture capital is such a quintessentially American institution, one that has proven difficult to recreate elsewhere.

Political Realism in Apocalyptic Times Alison McQueen, 2018. From climate change to nuclear war to the rise of demagogic populists, our world is shaped by doomsday expectations. In this path-breaking book, Alison McQueen shows why three of history's greatest political realists feared apocalyptic politics: Niccolò Machiavelli in the midst of Italy's vicious power struggles, Thomas Hobbes during England's bloody civil war, and Hans Morgenthau at the dawn of the thermonuclear age. All saw the temptation to prophesy the end of days. Each engaged in subtle and surprising strategies to oppose apocalypticism: from using its own rhetoric to neutralize its worst effects to insisting on a clear-eyed, tragic acceptance of the human condition. Scholarly yet accessible, this book is at once an ambitious contribution to the history of political thought and a work that speaks to our times.

Creation - Transformation - Theology LIT Verlag, 2022-01-02. The social and cultural challenges posed by the increasing threat to creation, climate change, destruction of biodiversity, etc., are the starting point for new philosophical, ethical, and theological reflections on the relationship between God, human beings, and the world as presented in this volume. God's creative impulse, which transforms anew, is at work in the actions of human beings and challenges us in view of the threat to the house of life on earth to go new ways that make a common and good life possible. Creation and transformation are interrelated; an ecological theology of creation and practice of sustainability to be developed in the European context is to be embedded in the horizon of a global liberating theology. Prof. Dr. h.c. Margit Eckholt, professor of dogmatics and fundamental theology at the Institute of Catholic Theology, University of Osnabrück, president of the European Society for Catholic Theology.

Metaphor Competition in the Book of Job Lance R. Hawley, 2018-03-26. Within the book of Job, the interlocutors Job, the friends, and Yahweh seem to largely ignore one another's arguments. This observation leads some to propose that the dialogue lacks conceptual coherence. Lance Hawley argues that the interlocutors tangentially and sometimes overtly attend to previously stated points of view and attempt to persuade their counterparts through the employment of metaphor. Hawley uses the theoretical approach of Conceptual Metaphor Theory to trace the concepts of speech and animals throughout the dialogue. Beyond explaining the individual metaphors in particular texts, he shows how speech metaphors compete with one another, most perceptibly in the expressions of Job's words: "are wind." With regard to animal metaphors, coherence is especially perceptible in the job is a predatory animal metaphor. In these

expressions the dialogue demonstrates intentional picking up on previously stated arguments Hawley argues that the animal images in the divine speeches are not metaphorical in spite of recent scholarly interpretation that reads them as such Rather Yahweh appears as a sage to question the negative status of wild animals that Job and his friends assume in their significations of people are animals This is especially apparent in Yahweh s strophes on the lion and the wild donkey both of which appear multiple times in the metaphorical expressions of Job and his friends
