Book Of Sacred Stones Fact And Fallacy In The Crystal World:

The Book of Sacred Stones Barbara G. Walker, 1989-09-13 Bestselling author Barbara Walker debunks the tall tales surrounding crystal mysticism and offers instead an intelligent alternative that includes a complete guide to minerals and their histories Because of her profound admiration for the beauty and mystery of crystals Barbara Walker reveals in this two part examination what crystals truly are what they can and cannot do and what they have meant to cultures down through the ages She exposes the crystal mystics grotesque ignorance of the very subject of which they claim expertise and presents detailed discussions on crystal vibrations healing and energies She points with humor and insight to the incomprehensible word salad crystal mystics use to explain their notions Then featuring an illustrated A to Z listing of all the minerals used in esoteric studies Walker presents the true history mythology and attributes of each stone This invaluable reference is for anyone interested in the facts and fiction of crystal mysticism **Sacred Stones of the Goddess** Galen Gillotte, 2003 Make everyday magic come alive with the beautiful prose and invocations found in **Sacred Stones of the Goddess** This one of a kind guidebook incorporates crystals and semiprecious stones in talismanic magic combined with guided meditations and prayers to the Goddess This book includes thirty five Goddess centered invocations for a variety of purposes step by step instructions for putting together and using your own thirteen stone divination set and instructions for creating and using your own set of Wiccan prayer beads **Defending Against Psychic Attacks** Carlos Ruiz Poleo, 2013-06-19 Back Cover excerpt Thousands of books have been written about happiness and how to achieve it but these do not consider outer influences from other humans in our life Of course all of us would like to be happy and without problems But many of us have had bad experiences or some sort of problems in our daily life without them having a logical cause or a possible explanation Some things did not go as expected despite all of our efforts We are sometimes victims of unforeseen accidents We sometimes are also unable to reach our foreseen immediate goals which previously were considered very simple even though we were fighting hard to achieve them We do not know why these events occur but most people attribute it to a possible bad luck at the time or something which was meant to be A second group either by superstition or rightly sustained attribute them to a third partys influence that is considered as an evil eyed person or bird of ill omen A third smaller group attributes causes to premeditated attacks from witches or sorcerers and to have been the target of curses or spells Negative intentions that could be either normal or enhanced are what we call psychic attacks My idea is to give orientation on something undeniable that exists although is blindly rejected by many Superstitions and myths are analyzed into a logical rational and partly scientific framework There are strong cultural differences between people from the western hemisphere and those from the orient and even between people that speak a common language but are separated by geographical or political boundaries But when common human reactions and events are observed in several different environments this makes us think that certain truth should be something underlying as the origin and outcomes of those events *Restoring the Goddess* Barbara G.

Walker, 2000-03 Harkening back to the widespread worship of a mother goddess at the dawn of civilization Walker argues for a restoration of this primal religious sensibility which celebrated the Earth's fertility and woman's innate power to bear new life
