A History Of Ideas And Images In Italian Art:

A History of Ideas and Images in Italian Art James Hall,1983 *Spirituality and the Occult* B. J. Gibbons,2001
Argues against the view that occult spiritualities are marginal to Western culture Shows that the influence of the esoteric tradition is neglected and that much of what we take to be modern derives at least in part from this The Triumph of the Cross Richard Viladesau,2008-04-22 This is a sequel to Richard Viladesau s well received study *The Beauty of the Cross The Passion of Christ in Theology and the Arts from the Catacombs to the Eve of the Renaissance* It continues his project of presenting theological history by using art as both an independent religious or theological text and as a means of understanding the cultural context for academic theology Viladesau argues that art and symbolism function as alternative strands of theological expression sometimes parallel to sometimes interwoven with and sometimes in tension with formal theological reflection on the meaning of crucifixion and its role in salvation history This book examines the two great revolutionary movements that gave birth to the modern West the Renaissance and the Protestant Reformation This period was eventful for both theology and art and thus particularly fruitful for Viladesau s project Using individual works of art over sixty of which are reproduced in this book to epitomize particular artistic and theological models he explores the contours of each paradigm through the works of representative theologians as well as liturgical poetic artistic and musical sources To name a few examples the theologies of Savonarola Luther Calvin and the Council of Trent are examined in correlation to the new situation of art in the era of Fra Angelico Leonardo Michelangelo D rer Cranach and the Mannerists In this book Viladesau continues to deepen our understanding of the foremost symbol of Christianity Shelley's Italian Experience Alan M. Weinberg,2016-07-27 Focusing on Shelley s Italian experience the present study both addresses itself to the living context which nurtured Shelley s creativity and explores a neglected but essential component of his work The poet s four years of self exile in Italy 1818 1822 were in fact the most decisive of his career As he responded to Italy his poetry acquired a new subtlety and complexity of vision Endowed with remarkably keen powers of absorption the poet imaginatively reshaped the rich cultural heritage of Italy and the vital qualities of its landscape and climate **Italy** Britannica Educational Publishing,2013-06-01 It is almost impossible to think about Italy without recalling its Renaissance art masterpieces its spectacular landscapes or its widely loved cuisine Although these combined elements hint at a united Italian culture Italy is truly a country comprised of individual regions each with their own identities histories and traditions Readers will follow Italy s trajectory from a land of disparate barbarian kingdoms to a republic discovering along the way the glories of the Medici period the factors influencing Italy s development into one of the world s most industrialized countries and the diverse society that makes up its population **Looking at the Renaissance** Charles R. Mack,2005 Charles Mack examines the evolving context of Renaissance art while offering fresh insight into the meaning of the Renaissance **Dictionary Of Modern Art** Matthew Baigell,2021-12-13 Alphabetically arranged and crossreferenced entries provide background

Who Is Mary? Vittoria Colonna, Chiara Matraini, Lucrezia Marinella, 2010-07-15 For women of the Italian Renaissance the Virgin Mary was one of the most important role models Who Is Mary presents devotional works written by three women better known for their secular writings Vittoria Colonna famed for her Petrarchan lyric verse Chiara Matraini one of the most original poets of her generation and the wide ranging intellectually ambitious polemicist Lucrezia Marinella At a time when the cult of the Virgin was undergoing a substantial process of redefinition these texts cast fascinating light on the beliefs of Catholic women in the Renaissance and also in the cases of Matraini and Marinella on contemporaneous women's social behavior prescribed for them by male writers in books on female decorum Who Is Mary testifies to the emotional and spiritual relationships that women had with the figure of Mary whom they were required to emulate as the epitome of femininity Now available for the first time in English language translation these writings suggest new possibilities for women in both religious and civil culture and provide a window to women's spirituality concerning the most important icon set before them as wives mothers and Christians
