A History of the Habsburg Empire, 1526-1918 Robert A. Kann, 1974 A political cultural and socioeconomic history of the Habsburg empire discussing the rise of Habsburg power its subsequent status and action as a great power and its dissolution

history of the Habsburg Empire, 1526-1918 Robert A. Kann, 1974 Peoples of the Eastern Habsburg Lands, 1526-1918

Robert A. Kann, Zdenek David, 2016-06-01 The Peoples of the Eastern Habsburg Lands 1526 1918 *Liberalism and the Habsburg Monarchy, 1861-1895* J. Kwan, 2013-11-19 Often the liberal movement has been viewed through the lens of its later German nationalism This presents only one facet of a wide ranging all encompassing project to regenerate the Habsburg Monarchy By analysing its various nuances this volume provides a new more positive interpretation of Austro German liberalism **Austria-Hungary and the Origins of the First World War** Samuel R. Williamson Jr, 1990-12-12 A major re

examination of Habsburg decision making from 1912 to July 1914 the study argues that Austria Hungary and not Germany made the crucial decisions for war in the summer of 1914 Based on extensive new archival research the book traces the gradual militarization of Austro Hungarian foreign policy during the Balkan Wars The disasters of those wars and the death of the Archduke Franz Ferdinand the heir apparent and a force for peace in the monarchy convinced the Habsburg elite that only a war against Serbia would end the South Slav threat to the monarchy s existence Williamson also describes Russia s assertive foreign policy after 1912 and stresses the unique linkages of domestic and foreign policy in almost every issue faced by Habsburg statesmen *The Rise and Decline of the American "Empire"* Geir Lundestad, 2012-03-08 The Rise and Decline of the American Empire explores the rapidly growing literature on the rise and fall of the United States The author argues that after 1945 the US has definitely been the most dominant power the world has seen and that it has successfully met the challenges from first the Soviet Union and then Japan and the European Union Now however the United States is in decline its vast military power is being challenged by asymmetrical wars its economic growth is slow and its debt is rising rapidly the political system is proving unable to meet these challenges in a satisfactory way While the US is still likely to remain the world s leading power for the foreseeable future it is being challenged by China particularly economically and also by several other regional Great Powers The book also addresses the more theoretical question of what recent superpowers have been able to achieve and what they have not achieved How could the United States be both the dominant power and at the same time suffer significant defeats And how could the Soviet Union suddenly collapse No power has ever been omnipotent It cannot control events all around the world The Soviet Union suffered from imperial overstretch the traditional colonial empires suffered from a growing lack of legitimacy at the international national and local levels The United States has been able to maintain its alliance system but only in a much reformed way If a small power simply insists on pursuing its own very

different policies there is normally little the United States and other Great Powers will do Military intervention is an option that can be used only rarely and most often with strikingly limited results **The First World War and German National Identity** Jan Vermeiren, 2016-07-18 An innovative study of the impact of the wartime alliance between Imperial Germany and Austria Hungary on German national identity
