De Castro, Ignacio Lòpez-Calvo, 2023 The Latin American novel burst onto the international literary scene with the Boom era led by Julio Cort zar Gabriel Garc a M rquez Carlos Fuentes and Mario Vargas Llosa and has influenced writers throughout the world ever since Garc a M rquez and Vargas Llosa each received the Nobel Prize in literature and many of the best known contemporary novelists are inspired by the region s fiction Indeed magical realism the style associated with Garc a M rquez has left a profound imprint on African American African Asian Anglophone Caribbean and Latinx writers Furthermore post Boom literature continues to garner interest from the novels of Roberto Bola o to the works of C sar Aira and Chico Buarque to those of younger novelists such as Juan Gabriel V squez Alejandro Zambra and Valeria Luiselli Yet for many readers the Latin American novel is often read in a piecemeal manner delinked from the traditions authors and social contexts that help explain its evolution The Oxford Handbook of the Latin American Novel draws literary historical and social connections so that readers will come away understanding this literature as a rich and compelling canon In forty five chapters by leading and innovative scholars the Handbook provides a comprehensive introduction helping readers to see the region s intrinsic heterogeneity for only with a broader view can one fully appreciate Garc a M rquez or Bola o This volume charts the literary tradition of the Latin American novel from its beginnings during colonial times its development during the nineteenth and the first half of the twentieth century and its flourishing from the 1960s onward Furthermore the Handbook explores the regions representations of identity narrative trends and authors that make this literature so diverse and fascinating reflecting on the Latin American novel s position in world literature Narcoepics Hermann Herlinghaus, 2013-02-14 Narcoepics Unbound foregrounds the

controversial yet mostly untheorized phenomenon of contemporary Latin American narcoepics Dealing with literary works and films whose characteristics are linked to illicit global exchange informal labor violence bare life drug consumption and ritualistic patterns of identity it argues for a new theoretical approach to better understand these narratives of intoxication Foregrounding the art that has arisen from or seeks to describe drug culture Herlinghaus comparative study looks at writers such as Gutierrez J J Rodriguez Reverte films such as City of God and the narratives surrounding cultural villains heroes such as Pablo Escobar Narcoepics shows that in order to grasp the aesthetic and ethical core of these narratives it is pivotal first to develop an aesthetics of sobriety The aim is to establish a criteria for a new kind of literary studies in which cultural hermeneutics plays as much a part as political philosophy analysis of religion and neurophysiological inquiry **Blurring organizational issues and social phenomena in the age of technology: a multidisciplinary perspective** Nemesio

Castillo, Alberto Ochoa, Chloé Malépart, 2013-04-29 The predominant view in economic theory until the crisis of the 70s argued the great enterprise was the key player in the innovation process this was conceived as an activity that unfolded in specific areas with clear responsibilities and predetermined objectives This operating structure of the innovative process was functional demand model that favored the standardization of production The innovative process was developed predominantly by firms that had a domain oligopolistic market from which they made windfall with which financed the research and development activities In this context the role of SMEs in the innovation process is limited to covering the portion of the market that big companies left Drug Trafficking in Mexico and the United States Gabriel

Ferreira, 2020-06-22 Gabriel Ferreira presents a comprehensive analysis of drug trafficking in Mexico and the United States by examining the roots development consolidation and cultural ramifications of this phenomenon in the past century as well as its negative consequences in contemporary Mexico Ferreira discusses the most devastating effects correlated to drug trafficking such as high murder rates gruesome violence disappearances and mass graves to emphasize how Mexican society bears the brunt of this phenomenon while the United States insists on the futility of drug prohibition Unlike other publications this book provides an interdisciplinary social science approach where drug trafficking is conceptualized as a multifaceted social political economic and cultural problem rather than just a criminal justice issue Drug Trafficking in Mexico and the United States also revisits the war on drugs and provides an argument how drug control is the primary force behind drug trafficking In that respect there is an analysis on how the DEA has reinforced the war on drugs model and why it became a reactionary agency that opposes any comprehensive alternative to the American drug problem besides drug control The author concludes with recommendations to implement forward thinking measures such as decriminalization reclassification and legalization of drugs to effectively address the illicit drug trade **Vida y violencia** Canal,

Jordi, 2020-08-24 Imer Mendoza escribe como ocurre casi siempre con la gran literatura sobre su país y sobre su tiempo Sus obras en especial las novelas noir protagonizadas por el Zurdo Mendieta permiten entrever una sociedad compleja y marcada

por los contrastes que rezuma vida más allá de los típicos y leyendas y de las realidades sobre la violencia y el narco Culiacán capital de Sinaloa es el centro de este mundo fascinante El ensayo de Jordi Canal de aires híbridos y muy personales que emerge de un diálogo entre historia y crítica literaria propone una aproximación a los espacios construidos por Mendoza definidos por lugares territorios encuentros comidas sonidos y muchas palabras **El amante de la psicoanalista** Mario Mactas, 2013-07-01 El amante de la psicoanalista la primera novela de Mario Mactas revela además a un narrador extraordinario *Historias de narcos: Culiacán y Medellín* Gabriela Polit Dueñas, 2021-07-08 Historias de narcos Culiacán y Medellín examina el lugar que el tráfico de drogas ocupa en la producción cultural de la región El libro compara las representaciones del narcotráfico en Culiacán y Medellín y muestra que aunque la corrupción la violencia y la desigualdad social están en la base de los productos culturales analizados novelas fotografías pinturas el lenguaje local responde a las dinámicas históricas y políticas de cada país de cada ciudad El acercamiento te rico que propone el libro combina la etnografía incluye entrevistas con autores y artistas de cada ciudad con una sistemática lectura crítica de las narrativas La novedad de esta metodología ofrece una visión amplia y profunda de las implicaciones del tráfico de drogas ilegales en los campos culturales locales El libro además se pregunta por el modo como el narcotráfico es localmente codificado representado estetizado y globalmente consumido a su vez ofrece una mirada panorámica de los peligros que enfrentan los autores cuando representan el fenómeno así como de los cambios en sus perspectivas a lo largo del tiempo **Mexico** George W Grayson, 2017-07-28 Mexico was named an Outstanding Academic Title of 2010 by Choice Magazine Bloodshed connected with Mexican drug cartels how they emerged and their impact on the United States is the subject of this frightening book Savage narcotics related decapitations castrations and other murders have destroyed tourism in many Mexican communities and such savagery is now cascading across the border into the United States Grayson explores how this spiral of violence emerged in Mexico its impact on the country and its northern neighbor and the prospects for managing it Mexico's Institutional Revolutionary Party PRI ruled in Tammany Hall fashion for seventy nine years before losing the presidency in 2000 to the center right National Action Party PAN Grayson focuses on drug wars prohibition corruption and other antecedents that occurred during the PRI's hegemony He illuminates the diaspora of drug cartels and their fragmentation analyzes the emergence of new gangs sets forth President Felipe Calderón's strategy against vicious criminal organizations and assesses its relative success Grayson reviews the effect of narcotics focused issues in U S Mexican relations He considers the possibility that Mexico may become a failed state as feared by opinion leaders even as it pursues an aggressive but thus far unsuccessful crusade against the importation processing and sale of illegal substances Becoming a failed state involves two dimensions of state power its scope or the different functions and goals taken on by governments and its strength or the government's ability to plan and execute policies The Mexican state boasts an extensive scope evidenced by its monopoly over the petroleum industry its role as the major supplier of electricity its financing of public
