Touching Surfaces Anca Cristofovici, 2009-01-01 Who isn't seduced by the idea of an affinity between aging and aesthetics Yet when does aging truly begin What attributes does the aesthetic embrace Looking into startling photographic art of the past three decades this book is prompted by such questions and turns them into a meditation on how aesthetics mediates our relation to time The photographic approach of the corporeal is at the center of the book Within a phenomenological framework Cristofovici brings into focus the physical and the psychic body to read aging as a process of change and becoming over time Her understanding of aging sees beyond difference into larger patterns of perceptions that we share Offering valuable insights into aging as a process of subject construction this book will be of interest to students and scholars of visual culture photography art history age studies and theories of knowledge This cross disciplinary study that puts theory to the test of life's and art's paradoxes in an evocative style will also appeal to a wider readership interested in how photography and aging illuminate each other

20th Century Photographers Grace Schaub, 2014-11-13 This book is a compilation of interviews and essays that cover a broad range of photographers and photographic disciplines Each photographer profiled made a living by concentrating on a specific aspect of the craft but in doing so transcended their livelihood to become recognized for more than the type of images they created Each had a distinct style creative approach dedication to the craft point of view about themselves and the world These interviews were conducted during a seminal period in the shift from film to digital and from print reproduction to global distribution on the Internet Just like their photographs continue to inspire today now these pros' words can live on as an invaluable reference for the photographers of the future The truth and wisdom in this collection transcend time and technology
