Ambition and Beyond Shirley Williams, Edward L. Lascher, 1993 *Ambition and Beyond* Shirley Williams, Edward L. Lascher, 1993 *Women and Elective Office* Sue Thomas, Clyde Wilcox, 2005-09-02 Since the publication of the first edition of this book former U S Senator Carol Moseley Braun s campaign for the presidency in 2004 and the widespread discussion of a run in 2008 by Senator Hillary Rodham Clinton have significantly raised the profile of women on the national political stage At the same time progress in electing women to the U S Congress and state legislatures has stalled The essays in *Women and Elective Office Past Present and Future* which feature research on women as political candidates and officeholders address this paradox Recruitment patterns media portrayals and voter reactions to women candidates are analyzed along with the impact of women in office relative to the challenges they face The 2nd edition includes increased coverage of women on the congressional level women officeholders of color and analysis of women parliamentarians worldwide In total *Women and Elective Office* offers a comprehensive look at the experiences and influence of women politicians today while considering women s prospects for political leadership in the twenty first century *Senators on the Campaign Trail* Richard F. Fenno, 1998-02-01 This is a book about the politics of representative democracy written from the perspective of the politicians who make it work Typically political scientists study campaigns from the perspective of the voter and for the purpose of explaining election outcomes But campaigns also need to be studied from the perspective of the candidate for the purpose of understanding representation Richard F Fenno Jr traveled with ten U S senators as they campaigned in their home states using what he calls the drop in drop out tag along hang around method of research to present a developmental picture of their activities His focus here is on three such activities pursuing a career campaigning for office and building constituency connections Taken together the three constitute the political underpinnings of representative democracy Fenno describes the achievement the testing and the maintenance of representational relationships He examines challengers and incumbents winners and losers and motivations strategies and behaviors and he reports on differences similarities and patterns among them In studying the candidates varied careers campaigns and connections in stages and sequences and in depth and in allowing us to hear them reflect on these experiences Fenno has been able to offer rare insights into campaigns and elections insights very different from conventional ones that concentrate on the behavior of voters In its focus on the process of representative democracy *Senators on the Campaign Trail* offers a rich rounded developmental view of some high level individuals who work at the business of representation For scholars the book suggests some qualitative confirmation and added stimulation in forging generalizations about politicians For citizens the book argues for replacing the conventional blanket condemnation of our politicians so prevalent today with more discriminating judgments about what they do and why and to what purpose they do it **Contested Transformation** Carol Hardy-Fanta, Pei-te Lien, Dianne Pinderhughes, Christine Marie Sierra, 2016-10-25 *Contested Transformation* constitutes the

first comprehensive study of racial and ethnic minorities holding elective office in the United States at the beginning of the twenty first century Building on data from the Gender and Multicultural Leadership GMCL National Database and Survey it provides a baseline portrait of Black Latino Asian American and American Indian elected officials the women and men holding public office at national state and local levels of government Analysis reveals commonalities and differences across race and gender groups on their backgrounds paths to public office leadership roles and policy positions Challenging mainstream political science theories in their applicability to elected officials of color the book offers new understandings of the experiences of those holding public office today Gains in political leadership and influence by people of color are transforming the American political landscape but they have occurred within a contested political context one where struggles for racial and gender equality continue

Political Recruitment Pippa Norris, Joni Lovenduski, 1995 Asking why some politicians succeed in moving into the highest offices of state while others fail this text examines the relative lack of women black and working class Members of Parliament and whether this evident social bias matters for political representation
