A History Of Linen In The North West:

A History of Linen in the North West Elizabeth Roberts, 1998 John Ruskin's Correspondence with Joan Severn

Rachel Dickinson, 2017-12-02 The great Library Edition of the Works of John Ruskin spans 39 volumes and over the course of the century further compilations of his private diaries and letters have appeared but the most important epistolary relationship of his later years shared with his Scottish cousin Joan Agnew Ruskin Severn has until now been entirely unpublished These letters more than 3 000 of them have been challenging for Ruskin scholars to draw upon with their baby talk apparent nonsense and unelaborated personal references Yet they contain important statements of Ruskins opinions on travel on fashion on the ideal arts and crafts home on effective education and other questions and Ruskin often used his letters to Severn as a substitute for his personal diary In this important new edition Dickinson presents an edited annotated selection of a correspondence which until now has been almost inaccessible to scholars of Ruskin and of the Victorian period

Tracing Your Textile Ancestors Vivien Teasdale, 2009-04-21 Vivien Teasdale s concise and informative guide to the textile industry will be absorbing reading for anyone who wants to learn about its history or to research the career of an ancestor who was a textile worker In a clear and accessible way she takes readers through the technical economic and social aspects of the story She gives a graphic account of the extraordinary growth of the industry in the eighteenth and nineteenth centuries and of its decline in the twentieth In the process she covers the themes and issues that family and local historians will need to understand in order to pursue their research She describes the inventions that transformed the manufacture of cloth the flying shuttle the spinning jenny the power loom but she also gives a keen insight into working life in the factories and into the close knit communities that grew up around them And she introduces the reader to the variety of national and local records that are available for genealogical research from census returns websites and publications to company records and registers regional archives and museums and the many other resources that can yield fascinating information about the industry and those who worked in it

Solway Country Allen J. Scott, 2014-11-19 The Solway Country the lands surrounding the inner Solway Firth constitutes one of the many small regional worlds of the British Isles that are remarkable for the ways in which their landscapes evoke a powerful sense of territorial identity rooted not only in their physical appeal but also in the richness and distinctiveness of their human history and geography The Solway Country is an archetypical but hitherto little known exemplar of places like these This book captures the spirit and substance of the Solway Country s allure by means of a series of layered narratives dealing with its natural milieu its past social and political turmoil its changing forms of rural and agrarian life and its responses to the industrial and urban forces that were unleashed in Britain after the eighteenth century The Solway Country has the added charm of being partly in England and partly in Scotland so that its personality partakes of elements of both At the same time the region exhibits a composite geographic unity derived from the central physical feature of the Solway Firth itself and from the many common aspects of local life and livelihood that have left

deep imprints on the landscape This unity is expressed symbolically in the peculiar hybrid culture of ballads and songs that emerged alongside the theft murder and mayhem that raged in the Anglo Scottish marchlands in the days of the border reivers

The New Cambridge Modern History: Volume 4, The Decline of Spain and the Thirty Years War, 1609-48/49 J. P. Cooper, 1979-12-20 This volume examines the period of history which saw the decline of Spain and the Thirty Years War Particular attention is paid to attitudes towards absolutism and the development of scientific ideas

Industrial Archaeology Eleanor Casella, James Symonds, 2007-01-04 Eleanor Conlin Casella and James Symonds The essays in this book are adapted from papers presented at the 24 Annual Conference of the Theoretical Archaeology Group held at the University of Manchester in December 2002 The conference session An Industrial Revolution Future Directions for Industrial Archaeology was jointly devised by the editors and sponsored by English Heritage with the intention of gathering together leading industrial and historical archaeologists from around the world Speakers were asked to consider aspects of contemporary theory and practice as well as possible future directions for the study of industrialisation and industrial societies It perhaps fitting that this meeting was convened in Manchester which has a rich industrial heritage and has recently been proclaimed as the archetype city of the industrial revolution McNeil and George 2002 However just as Manchester is being transformed by regeneration shaking off many of the negative connotations associated with factory based industrial production and remaking itself as a 21 century city then so too is the archaeological study of industrialisation being transformed In the most recent overview of industrial archaeology in the UK Sir Neil Cossons cautioned that industrial archaeology risked becoming a one generation subject that stood on the edge of oblivion alongside the mid 20 century pursuit of folklife studies Cossons 2000 13 It is to be hoped that the papers in this volume demonstrate that this will not be the case
