Ciulla, Donelson R. Forsyth, Michael A. Genovese, George R. Goethals, Lori Cox Han, Crystal L. Hoyt, 2008-10-30 What is leadership Not only has that question been debated since the beginning of human culture and society but it's a moving target based on the definer and the epoch The definition can be thought provoking and profound A leader is best when people barely know he exists not so good when people obey and acclaim him worse when they despise him Lao Tzu 6th century BC Or the profundity may lie shrouded in the prosaic A leader is one who has followers Peter Drucker 20th century However you define the concept today's challenges for leaders of all stripes are monumental and the need for effective leadership is huge More than anything this set travels farther and digs deeper than most leadership books It takes us from mere explanations of leadership to an understanding of it as part of the human condition Reading it should be at the top of the to do list for any leader in any era In *Leadership at the Crossroads* contributors from a wide variety of fields including management economics political science philosophy sociology history literature and psychology explore the many facets of leadership The set comprises Volume 1 *Leadership and Psychology* Volume 2 *Leadership and Politics* Volume 3 *Leadership and the Humanities* Collectively this set showcases traditional and emerging approaches to leadership in both theory and practice and raises new questions brought on by society's new challenges It also suggests solutions for developing and promoting leadership in the corporate world politics and diplomacy religion education non profits and the arts Whether identifying qualities that will serve a U S president well or the characteristics of the essential can do supervisor in today's corporation *Leadership at the Crossroads* supplies insights and intelligence that will help leaders make the most of the challenges and opportunities lying before them **Terrorism and Homeland Security** Paul Viotti, Michael Opheim, Nicholas Bowen, 2008-06-17 Despite the

fact that the Department of Homeland Security DHS has been active since November of 2002 the American homeland is still not secure from terrorist attack What passes as DHS strategy is often just a list of objectives with vague references to the garnering of national resources and the marshalling of support from other nations Drawi [Every Fifteen Minutes](#) Lisa Scottoline, 2015-04-14 New York Times best selling author Lisa Scottoline's visceral thriller *Every Fifteen Minutes* brings you into the grip of a true sociopath and shows you how in the quest to survive such ruthlessness every minute counts Dr Eric Parrish is the Chief of the Psychiatric Unit at Havemeyer General Hospital outside of Philadelphia Recently separated from

Emerging from the Rubble: Asian/American Writings on Disasters Yasuko Kase, Eliko Kosaka, 2025-08-12 With a focus on the transpacific and transnational relationship between North America and Asia *Emerging from the Rubble* Asian American Writings on Disasters explores Asian Americans complex and nuanced involvement in disastrous events Included in this purview of disaster are not only the damages and threats of current ongoing climate change but also the long lasting ruining effects inflicted by imperialism neo colonialism wars and these historical components entanglement with global capitalism that have generated both spontaneous and slow and or prolonged violent effects Moreover disasters can be acknowledged as manifestations of the Anthropocene an epoch shaped by human activity or what scholars like Jason W Moore and Donna J Harraway term the Capitalocene a paradigm where nature and capitalist society are deeply intertwined co creating an intricate web of life Asian American involvement in such a web has never been simple but convoluted some of them have experienced tremendous losses whereas others have perpetuated obfuscation of the truth and or induced violence often contingently with or without acknowledging the facts When considering Asian migrants including refugees from Southeast Asia who had little option but to seek asylum in the U S and Asian Americans who have pursued their happiness under the U S s capitalist premise of constant progress protection of human rights and freedom of choice it is important to note that Asian migrants and Asian Americans have become simultaneously active players and exploited individuals within the context of U S racial capitalism Acknowledging the impossibility of clearly differentiating natural and human made disasters scholars who contribute to this volume note the reciprocal influences between nature and civilization They examine how the entanglements of natural and human made disasters lead to the acceleration and expansion of damage This volume explores how Asian Americans connections with their ancestral origins along with their particular racial positions social classes and socio historical backgrounds in North American societies force them to experience and witness disastrous events differently from the mainstream discourse on eco crises
