A Hunter Comes Home:

Until the Last Man Comes Home Michael J. Allen, 2009-09-18 Fewer Americans were captured or missing during the Vietnam War than in any previous major military conflict in U S history Yet despite their small numbers American POWs inspired an outpouring of concern that slowly eroded support for the war Michael J Allen reveals how wartime loss transformed U S politics well before and long after the war s official end Throughout the war s last years and in the decades since Allen argues the effort to recover lost warriors was as much a means to establish responsibility for their loss as it was a search for answers about their fate Though millions of Americans and Vietnamese took part in that effort POW and MIA families and activists dominated it Insisting that the war was not over until the last man comes home this small determined group turned the unprecedented accounting effort against those they blamed for their suffering Allen demonstrates that POW MIA activism prolonged the hostility between the United States and Vietnam even as the search for the missing became the basis for closer ties between the two countries in the 1990s Equally important he explains POW MIA families disdain for the antiwar left and contempt for federal authority fueled the conservative ascendancy after 1968 Mixing political cultural and diplomatic history *Until the Last Man Comes Home* presents the full and lasting impact of the Vietnam War in ways that are both familiar and surprising

universe that has evolved to prey upon and feed exclusively on alien flesh made its way to earth What would happen when galactic predators learned of this activity What would happen if the United States Military learned of missing people in the Adirondack Mountains and observed an alien vessel landing in the Adirondack Mountains The Alien Queen has grown her hive to mass proportions and they are now a society poised to be the dominant species on earth Never before seen or known witness the birth of the Alien King See the Bonclee an alien species with the amazing ability to transform from a four legged animal to a bipedal animal They have amazing bone structure that can withstand all alien attacks and are immune to acid See the devastating claws of the Bonclee and they have jaws that will shock you See the army rangers navy seals marines special operations and special military task force teams use knowledge passed on to them from the very few who have knowledge of this threat See our military dish out destruction like never before because Mr Wayland is back His twin brother died at the hands of the predators Now our military men have the ability to cloak from the predators and have special ammunition able to pierce predator armor This is nonstop action and monster mayhem from start to finish but you still have not seen the best part See the never told story of Greygan The Little Warrior In 1785 a young man was targeted by a predator to be a trophy because of his exceptional hunting ability See Greygans amazing journey through space and how he became a predator Now after over two hundred years in space Greygan The Little Warrior returns to Earth to eliminate its greatest threat ever See the magnificence of the alien king See the surprisingly docile Bonclee as they feed on aliens See the military teams dish out destruction See the predators hunt every species in their way See the Alien Queen rule her domain and see Greygan the galaxy s only human predator With new species new monsters new weaponry and the human dilemmas faced by Greygan alien and predator fans around the world will be highly excited by this book Spina Comes Home *Horror Comes Home* Cynthia J. Gilman Jr.,2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent

wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II s literature and film Like few other books Gilman s volume studies these new texts among them Kevin Powers s debut novel *The Yellow Birds* and Phil Klay s short stories *Redeployment* along with the films *The Hurt Locker* *American Sniper* and *Billy Lynn s Long Halftime Walk* For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding
