History

FRANK BRUNET

"An excellent, lively, and accessible book that provides a comprehensive and up-to-date account of the political and cultural context of the Bush administration." —*Journal of American Studies*

Ambling Into History The Unlikely Odyssey Of George W Bush

Alexander Moens

Ambling Into History The Unlikely Odyssey Of George W Bush:

Ambling into History Frank Bruni, 2003-03-04 The unlikely Odyssey of George W Bush As the principal New York Times reporter assigned to cover George W Bush's presidential campaign from its earliest stages and then as a White House correspondent Frank Bruni has spent as much time around Bush over the last two years as any other reporter In *Ambling Into History* Bruni paints the most thorough balanced eloquent and lively portrait yet of a man in many ways ill suited to the office he sought and won focusing on small moments that often escaped the news media's notice From the author's initial introduction to Bush through a nutty election night and Bush's first months in office Bruni captures the president's familiar and less familiar oddities and takes readers on an often funny usually irreverent journey into the strange closed universe or bubble of campaign life The result is an original take on the political process and a detailed study of George W Bush as most people have never seen him

Ambling Into History Frank Bruni, 2002 **The Foreign Policy of George W. Bush** Alexander Moens, 2017-03-02 Few presidents in modern times have seen their words and actions subject to such intense critical scrutiny as George W Bush His critics label him the Pariah President personally inarticulate and at times politically incoherent his supporters portray him as gifted and skilled one of the most decisive successful and popular leaders of our time But if the person is now the policy at the White House and that person happens to be both activist and moralist what kind of presidency and foreign policy flows from such a leader How has Bush changed American politics and the role of the United States in the world Alexander Moens offers the first systematic explanation of Bush's foreign policy by describing the complexities of the man and how his particular personality and style so heavily influence the final policy outcomes Frank engaging and insightful it offers an original and carefully documented account of Bush's personality his presidential style and his decision making process and how these three core ingredients in turn provide the key to understanding Bush's overall strategy and policy *The Foreign Policy of George W Bush* is an ideal reference for contemporary US foreign policy international security and diplomatic relations With detailed and candid insights into the presidential leadership it will also make fascinating reading for those interested in the future of American politics

George W. Bush James Mann, 2015-02-03 The controversial president whose time in office was defined by the September 11 attacks and the war on terror George W Bush stirred powerful feelings on both sides of the aisle Republicans viewed him as a resolute leader who guided America through the September 11 attacks and retaliated in Afghanistan and Iraq while Democrats saw him as an overmatched president who led America into two inconclusive wars that sapped the nation's resources and diminished its stature When Bush left office amid a growing financial crisis both parties were eager to move on In this assessment of the nation's forty third president James Mann sheds light on why George W Bush made the decisions that shaped his presidency what went wrong and how the internal debates and fissures within his administration played out in such a charged atmosphere He shows how and why Bush became such a polarizing figure in both domestic and foreign affairs and he

examines the origins and enduring impact of Bush's most consequential actions including Iraq, the tax cuts and the war on terror. In this way, Mann points the way to a more complete understanding of George W. Bush and his times. **The Military-Industrial Complex and American Society** S. Mike Pavelec, 2010-01-18

The first complete reference on the military industrial complex from its Cold War era expansion to the present. The Military Industrial Complex and American Society addresses the broad subject of the political economy of defense research and its wide reaching effects on many aspects of American life. Ranging from the massive arms buildup of the Cold War to the influx of private contractors and corporations such as Halliburton, it reveals the interconnectedness of the military industry and government within the history of this public-private enterprise. The Military Industrial Complex and American Society offers over 100 alphabetically organized entries on a wide range of significant research bodies and government agencies as well as important people, events and technologies. In addition, a series of essays looks at such essential topics as propaganda, think tanks, defense budgeting, the defense industry and the economy and the breakdown of the military industrial complex in Vietnam. With this work, students, policymakers and other interested readers will understand the ramifications of the relationships between industry, scientific and technological communities, the government and society. **Barbara Bush** Myra G. Gutin, 2025-02-25

Wife of one president and mother of another, Barbara Bush was an outspoken first lady who looked more like her constituents than did her predecessors. A White House resident for only four years, she nevertheless became and remains one of the most admired women in the world. This new look at Barbara Bush draws on recently opened records at the Bush Library, the first lady's many speeches, interviews with the first lady's staff and an exclusive interview with Mrs. Bush to impart a new appreciation for this beloved former first lady. And while other biographies and her own memoir have hinted at seeming contradictions in the Barbara Bush persona, Myra Gutin looks squarely at her White House years to set the record straight and show that she was more than America's Grandmother-in-law. Gutin's portrait reveals a woman who was more of a success as first lady than her husband was as president, who in many ways was the public face of the George H. W. Bush administration. And while she wasn't an innovator as presidential wife, Gutin shows how the Silver Fox used her rich experience in politics to master the public relations side of first ladyship with as much skill as any White House spouse. Gutin argues that Barbara was more politically astute than George, even though she denied any input into policymaking and maintained an apolitical image. In fact, she played an integral role in campaigning, fund-raising and other activities that often blurred the line between the humanitarian and the political. Piercing through the first lady's public persona, Gutin reveals Barbara's backstage political skills in action, along with her closely held views on social issues like gun control and abortion. From behind the facade of an ideal American family, Gutin also includes frank accounts of George H. W. Bush's alleged adultery and of the death of the Bushes' daughter Robin. In addition, she lends new insight into Barbara's relationship with her mother, her role as entertainer and her role in wartime. Gutin gives us a vibrant woman who lent warmth to her husband's cool image.

and whose legacy lives in the Barbara Bush Foundation for Family Literacy and several best selling books It is a richly textured narrative that depicts a woman of loyalty candor and common sense who knew when and how to apply those qualities in the service of her husband

Introduction to Political Psychology Martha L. Cottam,Elena Mastors,Thomas Preston,2022-05-02 Introduction to Political Psychology explores the many psychological patterns that influence individual political behavior The authors introduce readers to a broad range of theories concepts and case studies of political activity arguing that individuals are driven or motivated to act in accordance with personality characteristics values beliefs and attachments to groups The book explains many aspects of political behavior whether seemingly pathological actions or normal decision making practices which sometimes work optimally and sometimes fail Thoroughly updated throughout the book examines patterns of political behavior in areas including leadership group behavior voting race nationalism terrorism and war This edition features coverage of the 2016 election and profiles former U S President Donald Trump while also including updated data on race relations and extremist groups in the United States Global issues are also considered with case studies focused on Myanmar and Syria alongside coverage of social issues including Black Lives Matter and the MeToo movement Accessibly written and comprehensive in scope it is an essential companion for all graduate and upper level undergraduate students of psychology political science and political psychology It will also be of interest to those in the policy making community especially those looking to learn more about the extent to which perceptions personality and group dynamics affect the policy making arena It is accompanied by a set of online instructor resources

American Presidents Attend the Theatre Thomas A. Bogar,2015-06-14 Not every presidential visit to the theatre is as famous as Lincoln s last night at Ford s but American presidents attended the theatre long before and long after that ill fated night In 1751 George Washington saw his first play The London Merchant during a visit to Barbados John Quincy Adams published dramatic critiques William McKinley avoided the theatre while in office on professional as well as moral grounds Richard Nixon met his wife at a community theatre audition Surveying 255 years this volume examines presidential theatre going as it has reflected shifting popular tastes in America

All the Presidents' Children Doug Wead,2004-01-06 Biographical sketches of the children of the presidents from the time of George Washington to the present

The Making of Modern America Gary A. Donaldson,2017-08-22 The third edition of Dr Gary A Donaldson s highly successful textbook The Making of Modern America introduces students to the cultural social and political paths the United States has traveled from the end of WWII to the present day While deftly cataloging the sweeping changes and major events in America from Dewey Defeats Truman through the election of Donald Trump this newly updated edition never loses touch with that American history taking place at the level of the people This edition details not just the United States rich cultural history but elegantly repositions it as integral to our understanding of any portion of this country s past Donaldson provides a factual foundation for students and then pushes them to interpret those facts framing the discussions essential to any complete study of American history
