Jonathan Michaels

American Anti Communism Combating The Enemy Within 1830 1970:

American Anti-Communism M. J. Heale, 1990-10 In American Anticommunism Heale examines the various forms American reactions to this perceived threat have taken from the attacks on workers in the Haymarket Riot to the widespread witch hunts of Senator Joe McCarthy

American Anti-Communism M. J. Heale, 1990-10-01 Although the term anticommunism is relatively new the phenomenon it described has deep historical roots in the United States Even before publication of the Communist Manifesto Heale explains many Americans were already forming an idealized image of their country as a Christian republic of self-reliant white men hardly fertile ground for Marxist socialism Heale shows how fears of foreign ideologies and suspicion on nineteenth-century immigrant groups helped shake American anticommunism during the age of industrialization He then examines the period from the 1930s to the 1960s when class conflict abated but politicians and bureaucrats had their own reasons for embracing a zealous anticommunism Heale concluded that American anticommunism is not only more deeply rooted but also more rational than is often thought Hard-headed calculations about radicals at home and communist successes abroad were closer to the heart of red scare politics than mindless hysteria It was the misfortune of the American Left he argues that it not only was linked to international revolution but also was large enough to be noticed yet small enough to be crushed

McCarthy's Americans M. J. Heale, 1998 Was the communist witch hunt unleashed by Senator Joe McCarthy an aberration or has red scare politics been an intrinsic part of American political life since the 1930s Was McCarthyism a populist or an elitist phenomenon Was Senator McCarthy virtually irrelevant to the phenomenon McCarthy's Americans shows that some of the contending interpretations of McCarthyism are mutually compatible and reveals the importance of pressures usually overlooked M. J. Heale's deeply probing study of McCarthy's hinterland in the American states demonstrates that what is usually called McCarthyism was part of a political cycle that emerged in the 1930s and took two decades to run its course Heale also argues that much of the red scare dynamic came from the big cities and the white South It was here that a range of interests exhibiting a fundamentalist fury with the changing times that the political order had fashioned during the New Deal years rested on fragile foundations Defying the consensus liberalism of the 1950s McCarthy and more important the many little McCarthys in the states kept alive a brand of right-wing politics preparing the way for George Wallace in the 1960s and the revitalized conservatism of Richard Nixon in the 1970s and Ronald Reagan in the 1980s

Anti-Communism in Twentieth-Century America Larry Ceplair, 2011-10-05 This compelling critical analysis of anti-communism illustrates the variety of anti-Communist styles and agendas thereby making a persuasive case that the threat of domestic communism in Cold War America was vastly overblown In the United States today communism is an ideology or political movement that barely registers in the consciousness of our nation Yet merely half a century ago communism was a buzzword that every citizen in our nation was aware of a term that connoted traitor and almost certainly a characterization that most Americans were afraid of

Anti Communism in Twentieth Century

America A Critical History provides a panoramic perspective of the types of anti communists in the United States between 1919 and the collapse of the Soviet Union It explains the causes and exceptional nature of anti communism in the United States and divides it into eight discrete categories This title then thoroughly examines the words and deeds of the various anti Communists in each of these categories during the three Red Scares in the past century The work concludes with an unapologetic assessment of domestic anti communism This book allows readers to more fully comprehend what the anti communists meant with their rhetoric and grasp their impact on the United States during the 20th century and beyond for example how anti communism has reappeared as anti terrorism

British and American Anti-communism Before the Cold War Markku Ruotsila,2023-05-09 This work examines in a comparative historical way the socialist liberal and conservative strands of Anglo American anticommunist thought before the Cold War In so doing this book provides us with an intellectual pre history of Cold War attitudes and policy positions

McCarthyism Jonathan Michaels,2017-04-21 In this succinct text Jonathan Michaels examines the rise of anti communist sentiment in the postwar United States exploring the factors that facilitated McCarthyism and assessing the long term effects on US politics and culture McCarthyism The Realities Delusions and Politics Behind the 1950s Red Scare offers an analysis of the ways in which fear of communism manifested in daily American life giving readers a rich understanding of this era of postwar American history Including primary documents and a companion website Michaels text presents a fully integrated picture of McCarthyism and the cultural climate of the United States in the aftermath of the Second World War

The Naked Communist:Cold War Modernism and the Politics of Popular Culture Roland Vegso,2013 Based on an analysis of American anti Communist politics in the 1950s the book presents parallel readings of modernism and popular fiction by concentrating on four recurrent figures the world the enemy the secret the catastrophe in order to show that the two cultural fields participated in a common ideological program

The Gendered Politics of the Korean Protestant Right Nami Kim,2016-11-01 This book provides a critical feminist analysis of the Korean Protestant Right s gendered politics Specifically the volume explores the Protestant Right s responses and reactions to the presumed weakening of hegemonic masculinity in Korea s post hypermasculine developmentalism context Nami Kim examines three phenomena Father School an evangelical men s manhood and fatherhood restoration movement the anti LGBT movement and Islamophobia anti Muslim racism Although these three phenomena may look unrelated Kim asserts that they represent the Protestant Right s distinct yet interrelated ways of engaging the contested hegemonic masculinity in Korean society The contestation over hegemonic masculinity is a common thread that runs through and connects these three phenomena The ways in which the Protestant Right has engaged the contested hegemonic masculinity have been in relation to others such as women sexual minorities gender nonconforming people and racial ethnic and religious minorities

Millennial Dreams and Apocalyptic Nightmares Angela M. Lahr,2007-10-31 The Religious Right came to prominence in the early 1980s but it was born during the early Cold War Evangelical leaders like Billy Graham driven by a

fierce opposition to communism led evangelicals out of the political wilderness they inhabited since the Scopes trial and into a much more active engagement with the important issues of the day. How did the conservative evangelical culture move into the political mainstream? Angela Lahr seeks to answer this important question. She shows how evangelicals who had felt marginalized by American culture drew upon their eschatological belief in the Second Coming of Christ and a subsequent glorious millennium to find common cause with more mainstream Americans who also feared a soon coming end albeit from nuclear war. In the early postwar climate of nuclear fear and anticommunism the apocalyptic eschatology of premillennial dispensationalism embraced by many evangelicals meshed very well with the secular apocalyptic mood of a society equally terrified of the Bomb and of communism. She argues that the development of the bomb, the creation of the state of Israel and the Cuban Missile Crisis combined with evangelical end times theology to shape conservative evangelical political identity and to influence secular views. Millennial beliefs influenced evangelical interpretation of these events, repeatedly energized evangelical efforts and helped evangelicals view themselves and be viewed by others as a vital and legitimate segment of American culture even when it raised its voice in sharp criticism of aspects of that culture. Conservative Protestants were able to take advantage of this situation to carve out a new space for their subculture within the national arena. The greater legitimacy that evangelicals gained in the early Cold War provided the foundation of a power base in the national political culture that the religious right would draw on in the late seventies and early eighties. The result she demonstrates was the alliance of religious and political conservatives that holds power today.

Framing China Ariane Knüsel, 2016-04-15

Framing China sheds new light on Western relations with and perceptions of China in the first half of the twentieth century. In this ground breaking book Ariane Knüsel examines how China was portrayed in political debates and the media in Britain, the USA and Switzerland between 1900 and 1950. By focusing on the political, economic, cultural and social context that led to the construction of the particular images of China in each country, the author demonstrates that national interests, anxieties and issues influenced the way China was framed and resulted in different portrayals of China in each country. The author's meticulous analysis of a vast amount of newspaper and magazine articles, commentaries, editorials, cartoons and newsreels that have previously not been studied before also focuses on the transnational circulation of images of China. While previous publications have dealt with the occurrence of the Yellow Peril and Red Menace in particular countries, Framing China reveals that these images were interpreted differently in every nation because they both reflected and contributed to the discursive construction of nationhood in each country and were influenced by domestic issues, cultural values, pre-existing stereotypes, pressure groups and geopolitical aspirations.
