Judovitz,Marcel Duchamp,2010 This volume explores the central importance of appropriation collaboration influence and
play in French artist Marcel Duchamp s 1887 1968 work and in Dada and Surrealism in general to show how the concept of
art itself became the critical fueland springboard for questioning art s fundamental premises Duchamp was a French artist
whose work is most often associated with the Dadaist and Surrealist movements The author maintains that rather than
simply negating art Duchamp s readymades Duchamp s readymades are ordinary manufactured objects that the artist
selected and modified as an antidote to what he called retinal art and later works including films and conceptual pieces
demonstrating the impossibility of defining art in the first place Through his readymades Duchamp explicitly critiqued the
commodification of art and inaugurated a profound shift from valuing art for its visual appearance to understanding the
significance of its mode of public presentation **American Education** ,1978
