Colonialist Photography Eleanor M. Hight, Gary D. Sampson, 2013-06-17 Colonialist Photography is an absorbing collection of essays and photographs exploring the relationship between photography and European and American colonialism. The book is packed with well over a hundred captivating images ranging from the first experiments with photography as a documentary medium up to the decolonization of many regions after World War II. Reinforcing a broad range of Western assumptions and prejudices, Eleanor M. Hight and Gary D. Sampson argue that such images often assisted in the construction of a colonial culture.

Handbook of Research Methods for Tourism and Hospitality Management Robin Nunkoo, 2018-07-27 As research in tourism and hospitality reaches maturity, a growing number of methodological approaches are being utilized, and in addition, this knowledge is dispersed across a wide range of journals. Consequently, there is a broad and multidisciplinary community of tourism and hospitality researchers whom, at present, need to look widely for support on methods. In this volume, researchers fulfil a pressing need by clearly presenting methodological issues within tourism and hospitality research alongside particular methods and share their experiences of what works, what does not work, and where challenges and innovations lie.

Anthropological Filmmaking J.R. Rollwagen, 2014-06-03 First Published in 1988, *Visual Anthropology* is a book series devoted to the illumination of the human condition through a systematic examination of all that is made to be seen. It is our intention to demonstrate the value of an anthropological approach to the study of the visual and pictorial world. The anthropological filmmaker, just like the ethnographer, must be content to present something about a dynamic process at a particular moment in time, regardless of the fact that all of the variables are constantly in flux. The purpose of this work is to make available a collection of articles by individuals who are both anthropologists and filmmakers.

Visual Anthropology John Collier, Malcolm Collier, 1986-10 This book provides reliable research methods from the systematic gathering of data through analysis of photographic records to transfer of insights to ethnographic records, with an emphasis on developing the skills of thorough observation rather than on technical skill.

Races of Mankind Marianne Kinkel, 2011 In 1930 Chicago's Field Museum of Natural History commissioned sculptor Malvina Hoffman to produce three-dimensional models of racial types for an anthropology display called the Races of Mankind. In this exceptional study, Marianne Kinkel measures the colossal impact of the ninety-one bronze and stone sculptures on perceptions of race in twentieth-century visual culture, tracing their exhibition from their 1933 debut and nearly four decades at the Field Museum to numerous reuses, repackagings, reproductions, and publications that reached across the world.
