All Of One Peace Essays On Nonviolence:

All of One Peace Colman McCarthy, 1994 A writer for the Washington Post for twenty five years Colman McCarthy is well respected as a pacifist teacher journalist and advocate of nonviolence In his twice weekly columns which are nationally syndicated he has extolled nonviolence as both a philosophy and a practical way of life As a high school college and law school teacher he has taught the principles and history of nonviolence to more than three thousand students in the past decade What McCarthy has written over the years is as he puts it all of one peace His consistency of vision derives from the indwelling of nonviolence He blames no one for the culture of violence in which we live but for a quarter century he has spoken out honestly and passionately against that culture All of One Peace is a major part of the body of work that has come to stand for integrity reason and candor in a time marked by lies violence and absurdity Nonviolence Mark Kurlansky, 2009-01-21 In this timely highly original and controversial narrative New York Times bestselling author Mark Kurlansky discusses nonviolence as a distinct entity a course of action rather than a mere state of mind Nonviolence can and should be a technique for overcoming social injustice and ending wars he asserts which is why it is the preferred method of those who speak truth to power Nonviolence is a sweeping yet concise history that moves from ancient Hindu times to present day conflicts raging in the Middle East and elsewhere Kurlansky also brings into focus just why nonviolence is a dangerous idea and asks such provocative questions as Is there such a thing as a just war Could nonviolence have worked against even the most evil regimes in history Kurlansky draws from history twenty five provocative lessons on the subject that we can use to effect change today He shows how time and again violence is used to suppress nonviolence and its practitioners Gandhi and Martin Luther King for example that the stated deterrence value of standing national armies and huge weapons arsenals is at best negligible and encouragingly that much of the hard work necessary to begin a movement to end war is already complete It simply needs to be embraced and accelerated Engaging scholarly and brilliantly reasoned Nonviolence is a work that compels readers to look at history in an entirely new way This is not just a manifesto for our times but a trailblazing book whose time has come *Crossing the Line* Rosalie G. Doing Time for Peace Rosalie G. Riegle,2021-04-30 In this compelling collection of oral histories more than seventy five peacemakers describe how they say no to war making in the strongest way possible by engaging in civil disobedience and paying the consequences in jail or prison These courageous resisters leave family and community and life on the outside in their efforts to direct U S policy away from its militarism Many are Catholic Workers devoting their lives to the works of mercy instead of the works of war They are homemakers and carpenters and social workers and teachers who are often called faith based activists They speak from the left of the political perspective providing a counterpoint to the faith based activism of the fundamentalist Right In their own words the narrators describe their motivations and their preparations for acts of resistance the actions themselves and their trials and subsequent jail time We hear from those who do their time by caring for their families and managing communities while their partners are imprisoned Spouses and children talk frankly of the strains on family ties that a life of working for peace in the world can cause The voices range from a World War II conscientious objector to those protesting the recent war in Iraq The book includes sections on resister families the Berrigans and Jonah House the Plowshares Communities the Syracuse Peace Council and Catholic Worker houses and communities The introduction by Dan McKanan situates these activists in the long tradition of resistance to war and witness to peace

A Treasure Chest of Hidden History Rusty Glover,2013-09-16 As a high school history teacher for the past 25 years I have

collected and read hundreds of books pertaining to my subjects taught. On the completion of each book I would carefully take notes on the most interesting events, quotes, or interpretations that I felt would enhance instruction for my students. After filling numerous notepads of information on over 800 books, I contemplated a project of sharing my most interesting findings. The result of this twenty-plus year project is this book. This book is divided into 16 chapters based on the various topics presented. Some chapters contain a small amount of entries such as Nicknames, Espionage, or Labor, while chapters on the Presidents or quotes will fill over thirty pages. The first chapter puts emphasis on the role my home state of Alabama has played on the national scene. One chapter is entitled Miscellaneous Odds and Ends due to the subject matter not fitting into any other classification.

Ethics, Security, and The War-Machine Ned Dobos, 2020-05-07

If pacifists are correct in thinking that war is always unjust, then it follows that we ought to eliminate the possibility and temptation of ever engaging in it. We should not build war-making capacity, and if we already have, then demilitarization or military abolition would seem to be the appropriate course to take. On the other hand, if war is sometimes justified, as many believe, then it must be permissible to prepare for it by creating and maintaining a military establishment. Yet this view that the justifiability of war-making is also sufficient to justify war-building is mistaken. This book addresses questions of *jus ante bellum* or justice before war. Under what circumstances is it justifiable for a polity to prepare for war by militarizing? When, if ever, and why, if at all, is it morally permissible to create and maintain the potential to wage war? In doing so, it highlights the ways in which a civilian population compromises its own security in maintaining a permanent military establishment, explores the moral and social costs of militarization, and evaluates whether or not these costs are worth bearing.
