AI, Personalization, Equity, and the Future of Learning

Wang, Viktor,2025-07-10 The integration of AI into education has redefined how learning is delivered and measured There is great potential for AI to drive a more personalized learning experience while also tailoring instructions to a person s

individuals needs While there are promises to enhance engagement and achievement it also raises critical questions about equity and access As we envision the future of learning it is essential to explore how AI can be harnessed not only to support personalization but also to bridge educational gaps ensuring that innovation benefits all learners regardless of background or circumstance AI Personalization Equity and the Future of Learning explores the transformation of AI in education and its impacts on personalized and equitable learning This book provides a critical lens on equity and access encouraging the development of inclusive AI driven solutions that benefit diverse learners worldwide Covering topics such as academic research speech recognition tools and workforce readiness this book is an excellent resource for researchers educators administrators policymakers instructional designers academicians and more [Startup Finance 2.0](#) Sam Ghosh,2025-08-29

Traditional corporate financial theories and tools are based on matured companies with the assumption that the companies are going concerns Going Concern refers to the assumption that a company will continue to operate indefinitely with no intention or necessity of liquidation or cessation of operations in the foreseeable future The problem is that the Going Concern assumption does not hold for startups due to the inherent uncertainty associated with startups Traditional financial education and resources usually meant for analysts and accountants aren't ideal for entrepreneurs They focus on analyzing past data from established businesses not on making forward looking decisions in the uncertain and highly dynamic environment of startups Entrepreneurs also often struggle to prioritize the allocation of resources between seemingly urgent matters and matters that are important for the long term value of the startup Thus this book takes a value oriented approach to startup finance The book is designed to build the financial intuition that an entrepreneur needs to prioritize matters vital for the long term value of the company raise capital and allocate capital for value maximization It also looks at finance from a value creation point of view and covers specific methods especially suited for startups from investment assessment to valuation to fundraising to managing day to day finances
