The First 20 Hours Josh Kaufman, 2014-05-27 What if it's possible to learn the basics of any new skill in 20 hours or less? Research suggests it takes 10 000 hours to master a new skill and the earliest hours are always the most frustrating. That's why it's so difficult to learn a new language, play an instrument, hit a golf ball or shoot great photos. Josh Kaufman offers a better way. His systematic approach to rapid skill acquisition shows you how to deconstruct complex skills, maximize productive practice and remove common learning barriers. By completing just 20 hours of focused deliberate practice, you can pick up the basics in record time and have more fun along the way.

New Age Capitalism Kimberly J. Lau, 2015-11-10 The pursuit of health and wellness has become a fundamental and familiar part of everyday life in America. We are surrounded by an enticing world of products, practices and promotions assuring health and happiness. Cereal boxes claim that their contents can reduce the risk of heart disease. Bars of aromatherapy soap seek to wash away our stresses. Newspapers celebrate the wonders of the latest superfoods and herbal remedies. No longer confined to the domain of Western medicine, suggestions for healthy living often turn to alternatives originating in distant times and places in cultures very different from our own. Diets from ancient or remote groups are presented as cures for everything from colds to cancer. Exercise regimens based on Eastern philosophies are heralded as paths to physical health and spiritual wellbeing. In 'New Age Capitalism' Kimberly Lau examines the

ideological work that has created this billion dollar business and allowed Eastern and other non Western traditions to be coopted by Western capitalism Extending the orientalist logic to the business of health and wellness American companies have created a lucrative and competitive market for their products encouraging consumers to believe that they are making the right choices for personal as well as planetary health In reality alternative health practices have been commodified for an American public longing not only for health and wellness but also for authenticity tradition and a connection to the cultures of an imagined Edenic past Although consumers might prefer to buy into authentic non Western therapies New Age Capitalism argues that the market economy makes this goal unattainable **The New Experience of the Supersensible**

Jesaiah Ben-Aharon,2007 According to Rudolf Steiner s spiritual science the greatest spiritual event of our time is the renewal and reawakening of our human suprasensory relationship to the higher spiritual worlds The force that leads to this development called by various names in different cultural and religious traditions is called the Christ impulse by Anthroposophy in accordance with Christian terminology Because of new naturally endowed suprasensory faculties human beings are increasingly able to experience and perceive through an act of grace the great spiritual force of the Christ impulse This experience is said to be a naturally given initiation and today we increasingly hear of such suprasensory experiences Today however a healthy approach to these natural phenomena requires us to comprehend suprasensory experiences with full awareness and clear thinking This book builds an all important bridge between the naturally given suprasensory experience and its conscious cognition As a result empirical suprasensory research can investigate the different aspects of Christ s etheric becoming and appearance in a way that both methodically and experientially fulfils the justified cognitive and scientific requirements of our age This new paperback edition adds a new introductory chapter The Parkinson's Playbook
