An Introduction To Ancient Egypt:

History of Ancient Egypt Erik Hornung, 1999 This volume presents an introduction to Egyptian history reflected by the author's treatment of religious developments and their relationship to current Egyptian society, ethics and politics. He begins his account by taking a brief look at the prehistoric era in Egypt. He then focuses on political events during the period beginning with the reign of Menes and closing with the conquest by Alexander the Great. Building on insights drawn from the civilization's surviving texts and monuments, he also describes significant cultural developments such as changes in burial customs and the building of the Great Pyramids and Sun Temples.
