This is a very real and useful research problem which is addressed by many of the contributions to the conference But there is an even broader interpretation of the motto wide adoption of Topic Maps in academia and industry This is an equally important problem and one that the TMRA conference series exists to help solve And there is a more fanciful view on the motto To scale can also mean to climb so for the attendees the conference provided a way to scale the mountain of Topic Maps In all these ways TMRA 2007 helped to scale Topic Maps
