Arabic Logic Ibn Al Tayyib's Commentary On Porphyry's Eisagoge:

Arabic Logic, 1979-06-30 This translation of Ibn al Tayyib's work on Porphyry's Eisagoge brings to the English readers a significant book in Near Eastern logic that has been discussed and excerpted by major philosophers such as Tusi Averroes and Avicenna. It has also been the source of philosophical discussions on topics of logic by Boethius, Abelard, Ockham and others. Gyekye has clarified the Arabic link between Greek and Latin traditions with his translation, detailed explanations and text analysis of this 11th century philosopher's commentary on the Eisagoge, a work which is itself based on Aristotle's Categories and Metaphysics.

Studies on Early Arabic Philosophy Peter Adamson, 2023-04-21 Philosophy in the Islamic world from the 9th to 11th centuries was characterized by an engagement with Greek philosophical works in Arabic translation. This volume collects papers on both the Greek philosophers in their new Arabic guise and on reactions to the translation movement in the period leading up to Avicenna. In a first section, Adamson provides general studies of the formative period of philosophy in the Islamic world, discussing the Arabic reception of Aristotle and of his commentators. He also argues that this formative period was characterized not just by the use of Hellenic materials but also by a productive exchange of ideas between Greek-inspired philosophy (*falsafa*) and Islamic theology (*kalām*). A second section considers the underappreciated philosophical impact of Galen, using Arabic sources to understand Galen himself and exploring the thought of the doctor and philosopher al-Rāzī, who drew on Galen as a chief inspiration. A third section looks at al-Fārābī and the so-called Baghdad school of the 10th century, examining their reaction to Aristotle's Metaphysics, his epistemology and his famous deterministic sea battle argument. A final group of papers is devoted to Avicenna's philosophy, which marks the beginning of a new era of philosophy in the Islamic world.
