the authors' conclusions on the importance of the "information" aspect of a company's reputation and on the need for a more holistic approach to reputation management. They also suggest that the concept of reputation management should be extended to include the management of a company's internal reputation, as well as its external reputation. This is because a company's internal reputation can have a significant impact on its external reputation, and vice versa. For example, a company with a poor internal reputation may find it difficult to build a strong external reputation, and a company with a strong external reputation may find it difficult to maintain a strong internal reputation. Therefore, the authors argue that a company's reputation management strategy should be based on a holistic approach that takes into account both its internal and external reputation.

Bart Jones

An American Scandal Hc 2002:

Hugo! Bart Jones, 2009-06-02 Ruling elites in Venezuela the United States and Europe and even Hugo Chavez himself though for different reasons have been eager to have the world view him as the heir to Fidel Castro But the truth about this increasingly influential world leader is more complex and more interesting The Chavez that emerges from Bart Jones carefully researched and documented biography is neither a plaster saint nor a revolutionary tyrant He has an undeniably autocratic streak and yet has been freely and fairly re-elected to his nation's presidency three times with astonishing margins of victory He is a master politician and an inspired improviser a Bolivarian nationalist and an unashamed socialist His policies have brought him into conflict with the International Monetary Fund the World Bank and major oil companies They have also provided a model for new governments and social movements in Ecuador Bolivia and Argentina When in September 2006 he declared at the United Nations that the devil came here yesterday the President of the United States it was clear that he was taking on challenging the most powerful nation on earth in conscious imitation of the Liberator Simon Bolivar From the Trade Paperback edition *Hillary's Scheme* Carl Limbacher, NewsMax, 2004-06-22 Can this country survive another Clinton presidency Two terms of Slick Willy were bad enough Now numerous political experts and people close to the Clinton family hint that Hillary is plotting to retake the White House and ring in another four or eight years of a Clinton as commander in chief She denies any presidential bid is in the works But a few years before she entered the Senate race Hillary claimed she would never run for any elective office whatsoever In shocking detail Hillary's Scheme confirms the worst fear of tens of millions of Americans that Hillary Clinton indeed plans to run for president within the next few years This explosive behind the scenes book by investigative journalist Carl Limbacher blows the lid off the New York senator's plans for a grand political coup something she has been carefully and quietly plotting for more than 20 years Limbacher conducted extensive research into Hillary's past and secured exclusive interviews with Clinton insiders and even questioned Hillary herself to bring you the real story What he uncovers are the truly juicy morsels the backroom deals and the insider wrangling around Hillary's presidential ambitions that aren't being reported in the mainstream press If you love to hate Hillary or are just curious about one of America's most controversial figures there's plenty in this book to get your blood boiling You'll discover the answers to questions Hillary is unwilling to address in public including Why is she not likely to wait until 2008 to enter the race for president How did she torpedo Al Gore's chances for a rematch with President Bush Where are the millions of dollars she's supposedly raising for the Democratic Party really going Why does she dodge tough questions about her husband's abysmal record on fighting international terrorism And many many more If you don't think that Hillary Clinton has a fighting chance to win the presidency you must read this book With startling prescience Limbacher draws parallels between today's political environment and that which existed in 1992 the year George H W Bush lost the race to an upstart governor from Arkansas You don't need to be a member of the vast right wing conspiracy or even a Republican to be concerned about what Hillary in

the White House would mean for the presidency the Constitution and America as we know it *Library Journal* ,2002
