An Economic History Of South Africa Conquest Discrimination And Development Ellen Mcarthur Lectures

D. M. Goodfellow

An Economic History Of South Africa Conquest Discrimination And Development Ellen Mcarthur Lectures:

An Economic History of South Africa C. H. Feinstein, 2005-06-23 This book is the first economic history of South Africa in over sixty years Professor Charles H Feinstein offers an authoritative survey of five hundred years of South African economic history from the years preceding European settlements in 1652 through to the post Apartheid era He charts the early phase of slow growth and then the transformation of the economy as a result of the discovery of diamonds and gold in the 1870s followed by the rapid rise of industry in the wartime years The final chapters cover the introduction of apartheid after 1948 and its consequences for economic performance Special attention is given to the processes by which the black population were deprived of their land and to the methods by which they were induced to supply labour for white farms mines and factories This book will be essential reading for students in economics African history imperial history and politics

American Book Publishing Record ,2003 *The British National Bibliography* Arthur James Wells,2006 **Novai** a

literatura po so t sial'nym i gumanitarnym naukam ,2008 **An Economic History of South Africa** D. M.

Goodfellow,2022-10-05 Originally published in 1931 A Modern Economic History of South Africa describes the state of Southern Africa in its early days Its early expansion the agriculture of the Trek Boers the difficulties of communication over vast stretches of uncultivated land are woven by the author into a concrete picture of the economic life of the then undeveloped country The development of the gold and diamond mining industries is discussed as is their effect on the economy and the development of infrastructure which followed such as the railways The challenges of development are also analysed the customs problems the increased contact of European with Bantu populations and the ultimate unification of the sub continent of South Africa **Economic history 5B.** ,19?? *The Evolution of the South African System of Innovation since 1916* Mario Scerri,2009-05-27 In this book Mario Scerri provides the reader with a novel and sweeping rendition of South Africa s economic history from the early part of the twentieth century to the present He applies a broad innovation systems approach to this history spanning the period from 1916 which saw the drafting of South Africa s first Science and Technology plan to the first fourteen years of the post apartheid period The introduction of the book lays out the scope of the work and its focus on the identification of continuities and ruptures in the economic history of South Africa The first part of the book deals with the theoretical foundations of the approach The first chapter in this section looks at the emergence of evolutionary economics and innovation systems theory as the basis for the main countervailing argument against the neoclassical neoliberal orthodoxy In the course of this chapter the foundation is laid for the development of an alternative general theory of economics The second chapter covers the main debates on the economic history of South Africa and looks at the several varieties of the liberal and Marxist renditions of this history The theoretical section lays the foundation for the history that is covered in the four chapters which follow These cover three broad periods since 1916 The first runs up to 1948 with the election victory of the National Party The second covers the apartheid period and the last follows with an account of

the post apartheid political economy An endnote provides the basis for the analysis of what may possibly be the emergence of a fourth main period in the evolution of the South African system of innovation The Evolution of the South African System of Innovation since 1916 opens up a novel engagement with the complex phenomenon of apartheid its genealogy and its aftermath It will appeal to economists and economic historians who are interested in the economy of South Africa It will be of particular interest to evolutionary economists who use the systems of innovation approach as an alternative to mainstream neoclassical economics in the analysis of dynamic economic systems For this particular audience this book will provide a welcome addition to the growing body of literature in this area especially given the novelty of its historical approach
