**An Extreme Asian-American Upbringing** Mei Jyu-Chwang Lee, 2003-02-01      **Asian American Parenting and Parent-Adolescent Relationships** Stephen T. Russell, Lisa J. Crockett, Ruth K. Chao, 2010-06-25

The relationships between children and their parents are the building blocks for family relationships throughout life. The nature of the parent-child relationship begins with parenting the practices and strategies that parents engage in as they raise their children. Parenting during childhood sets the stage for parent-adolescent relationships. These relationships make a critical difference during the teenage years; we know that when parent-adolescent relationships are healthy and strong, adolescents are more likely to have high aspirations and achievement and to make healthier choices when it comes to risk-taking. Most of the research in this field has been based in the United States and has been conducted through studies of European American families. Yet a growing body of research suggests important ethnic differences in styles of parenting and the qualities characterizing the parent-adolescent relationship. In this area of research, most existing studies have examined ethnic and cultural group differences using widely accepted measures and concepts of parenting. Comparative studies assume that dimensions of parenting such as parental warmth or control have the same meaning across cultures; however, given that conceptualizations of adolescent parent relationships have been developed and tested on samples comprised largely of European Americans, we cannot rule out the possibility that the way we understand parenting has been shaped by the predominantly Western and U.S.-focused research in this field.

**Asian American Parenting** Yoonsun Choi, Hyeouk Chris Hahm, 2017-09-22

This important text offers data-rich guidelines for conducting culturally relevant and clinically effective intervention with Asian American families. Delving beneath longstanding generalizations and assumptions that have often hampered intervention with this diverse and growing population, expert contributors analyze the intricate dynamics of generational conflict and child development in Chinese, Korean, Filipino, and other Asian American households. Wide-angle coverage identifies critical factors shaping Asian American family process from parenting styles, behaviors, and values to adjustment and autonomy issues across childhood and adolescence, including problems specific to girls and young women. Contributors also make extensive use of quantitative and qualitative findings in addressing the myriad paradoxes surrounding Asian identity, acculturation, and socialization in contemporary America. Among the featured topics: Rising challenges and opportunities of uncertain times for Asian American families; A critical race perspective on an empirical review of Asian American parental racial/ethnic socialization; Socioeconomic status and child/youth outcomes in Asian American families; Daily associations between adolescents' race-related experiences and family processes; Understanding and addressing parent-adolescent conflict in Asian American families; Behind the disempowering parenting: expanding the framework to understand Asian American women's self-harm and suicidality. Asian American Parenting is vital reading for social workers, mental health professionals, and practitioners working with family therapy cases who seek specific practice-oriented case examples and resources for empowering interventions.

with Asian American parents and families      **Asian American Family Life and Community** Franklin Ng, 2014-06-23

Before World War II family life in Asian American communities was greatly influenced by immigration policies and cultural practices. For some groups such as the Chinese and the Filipinos a dearth of females resulted in the appearance of bachelor societies. Among the Japanese a healthy family society was maintained by the practice of sponsoring picture brides. The essays in this volume examine such issues as the role of the family, generational changes and the significance of kinship networks, newspapers and credit associations in various Asian American groups      Asian American Biography Helen Zia, Susan B. Gall, 1995 Profiles more than 130 Asian Americans notable for their achievements in such fields as civil rights, sports, academia, entertainment, the military and science      *Asian American Youth* Jennifer Lee, Min Zhou, 2004 First Published in 2004 Routledge is an imprint of Taylor Francis, an informal company      Education and the Family Timothy J. Madigan, Sampson Lee Blair, 2025-05-21 Chapters cover topics such as family economic and cultural resources and school performance and attainment of students, family multilingualism and academic success, family stressors and education, valuation of higher education versus employment and family contestations of public schooling and its policies and curriculum among others      **Asian American Biography: A-L** Helen Zia, Susan B. Gall, 1995 A two volume set that profiles more than 130 Americans living and deceased who can trace their ancestry to Asia and the Pacific Islands notable for their accomplishments in a wide variety of fields      **Asian American Identities, Relationships, and Post-Migration Legacies** Jessica ChenFeng, Lana Kim, 2024-10-04 Bringing together the personal and professional narratives of Asian American family therapists, this book offers insight into the Asian American experience through systemic theory and frameworks, individual and community stories and clinical considerations. The Asian American experience is still a largely invisible and unknown one, especially in the field of marriage and family therapy. With a contextual lens, this book highlights how understanding family migration legacies and individual generational status relative to time, place and context is critical to doing meaningful work with Asian Americans. Filled with thought provoking case studies and reflective questions, chapters discuss the impact of stereotyping on mental health, the historical and present ways that Asian American racialization invisibilizes individual and collective experiences, shame associated with bicultural identity, gender, generational trauma, media representations and more. Each chapter bridges these ideas to clinical practice while concurrently centering the voices and experiences of Asian American therapists. This book is essential reading for marriage and family therapists and other mental health clinicians who want to deepen their understanding of relationship with and clinical support for the Asian Americans in their lives, whether friends, colleagues, supervisees or clients      Asian American X Arar Han, John Hsu, 2010-02-22 This diverse collection like Asian America itself adds up to something far more vibrant than the sum of its voices. Eric Liu, author of *The Accidental Asian*. There's fury, dignity and self awareness in these essays. I found the voices to be energetic and the ideas exciting. Diana Son, playwright *Stop Kiss* and co producer *Law*. It is required reading both for young Asian Americans who seek to understand

themselves and their social group and for all who are interested in keeping abreast of the changing American social terrain
