American Family Can It Survive:

Survival of the African American Family Karen S. Jewell, 2003-11-30 Challenging widely held beliefs this provocative book offers nothing less than a blueprint for enhancing the social and economic status of African American families Despite the implementation of liberal social policies in the 1960s and 70s successive U S administrations continue to dash the hopes and expectations of African Americans who remain subject to racism and discrimination Arguing that social policies and their absence have affected the stability of the African American family Jewell refutes the myth of significant progress for African American families emanating from the civil rights era exposing the myriad reasons why greater advancement toward equality has not occurred in major societal institutions Attention is focused on the extent to which African American families have been adversely affected by a process of assimilation that was socio psychological rather than economic This new edition builds upon the first edition and is revised and expanded to reflect new and persistent institutional policies and practices of race gender and class inequality facing African American families The revised edition explores such issues as racial profiling capital punishment police brutality predatory lending No Child Left Behind welfare reform affirmative action and racial disparities in healthcare academic achievement and home ownership Jewell proposes a variety of strategies and policies that are needed to ensure greater social and economic equality and justice for African American families 500+ *All-American*

□□□□□ , 2001 10 4 *Representing the Contemporary North American Family* Sophie Chapuis, Marie Moreau, 2021-08-06 The rise in individualism and the growing liberalism of family law may be seen as potential threats to the family as a unit Currently defenders of traditional family models are being forced to accept a more fluid definition of family as an intrinsic heterogeneous unit Central to this book is the idea that the family as a social unit around which society is structured still plays a pivotal role in North America States courts and political parties have had to address the major mutations of the family

landscape in the last decades The family is instrumental in reorganizing communities in migration contexts and is a key component of political strategies The way family is staged in the press on social media and in TV shows reflects the fast changing patterns and new realities of North American families and offers alternatives to hegemonic representations of normative families It also ranks high among current literary obsessions since it is the privileged receptacle for contemporary anxieties and operates both as an ideal retreat or an alienating space The proliferation of family narratives in their ever shifting forms reveals that family has boundless potential for fiction and continues to run deep in the North American imaginary This book gathers together approaches that range from field study sociology politics media studies and literature The contributions here show the centrality of the family both as an individual unit and as social political legal and fictional constructs

The Cinematic Representation of the Chinese American Family Qijun Han, 2016-03-08 There has been an increasing recognition of the fluidity and ambiguity of ethnic identities within the context of global mobility With that in mind how have films constructed the identity of ethnic Chinese in the United States This book addresses this issue through three sub questions First why is the family narrative so characteristic of films about Chinese Americans in transnational Chinese cinema In other words how and why are images of Chinese or Chinese Americans in transnational Chinese cinema different from those in Hollywood movies Second how does transnational Chinese cinema define and negotiate the aesthetic conventions of melodrama commonly used to depict Chinese American families In terms of establishing melodrama as an evolving mode of how does Chinese American cinema historically connect with both Hollywood and Chinese cinema Third what have the narrative treatments of Chinese American families in transnational Chinese cinema contributed to the ongoing representation of Chinese culture and construction of ethnic Chinese identities in Western societies This book traverses fields such as cultural studies Chinese studies media studies American studies and film studies and engages with a select corpus of films from the 1990s to the 2000s directed by Chinese American Taiwanese and Hong Kong filmmakers and produced in the USA Taiwan Hong Kong and mainland China to analyze the role the American Chinese family plays in their work With sensitivity towards transnational bonds and historical processes a negotiation process of three sets of conflicting forces has subsequently emerged the traditional and the modern the national and the transnational and Chinese American identity crisis in favor of a Chinese identity or a true American identity Contrasting cultural beliefs undoubtedly create cross cultural and generational conflicts within the family yet also open the way to negotiation and compromise This research on the cinematic depiction of Chinese Americans reveals the historically significant transnational connection among Chinese American Chinese and American cultures On the one hand ethnic Chinese are represented by boundaries that establish and define the Chinese American community against other communities and yet on the other hand the representation of family life and structure of Chinese immigrants is multiple and fluid as culture itself is unstable and uncertain Therefore a process of fixation and a process of fluidity seem to take place at the same time
