American Entertainment:

African-American Entertainment in Baltimore Rosa Pryor-Trusty, 2012-09-18 African American Entertainment in Baltimore captures the brilliance of the city's musical heritage from 1930 to 1980. This educational and entertaining volume invites readers to take a visual trip down memory lane to the days when Pennsylvania Avenue, the heart of the city's African American community, vibrated with life. Celebrated within these pages are entertainers such as The Ink Spots, Sonny Til, The Avenue's hottest nightspots and theaters including the legendary Royal Theater, The Regent Theater, the Sphinx, and Club Casino, and the DJs and promoters who helped cultivate the city's musical talents. *Entertainment Industry* Michael J. Haupt, 2012-08-17 This book serves as a one-stop source for comprehensive information on the entertainment industry, providing a historical overview of the economics of the field, a series of short biographies of the impact makers, and an extensive annotated bibliography of more sources for in-depth research. *Entertainment Industry: A Reference Handbook* casts the spotlight on the evolution of the entertainment industry over the entire span of the 20th century, covering everything from vaudeville to radio and from sports to television and movies. It explores how the entertainment industry stands apart from other high-dollar big business enterprises with regard to how its economy is sustained, and it serves as a handy source for more in-depth information that general readers will find fascinating. An extensive annotated bibliography guides readers through their research, while a historical overview of the economics of the industry, a series of short biographies of the impact makers in the industry, and sources of more current information make this work essential reading for anyone seeking comprehensive and specific information about the entertainment industry. **American Nights Entertainment** Grant Overton, 1923 **Empires of Entertainment** Jennifer Holt, 2011-06-01 *Empires of Entertainment* integrates legal, regulatory, industrial, and political histories to chronicle the dramatic transformation within the media between 1980 and 1996. As film, broadcast, and cable grew from fundamentally separate industries to interconnected synergistic components of global media conglomerates, the concepts of vertical and horizontal integration were redesigned. The parameters and boundaries of market concentration, consolidation, and government scrutiny began to shift as America's politics changed under the Reagan administration. Through the use of case studies that highlight key moments in this transformation, Jennifer Holt explores the politics of deregulation, the reinterpretation of antitrust law, and lasting modifications in the media landscape. Holt skillfully expands the conventional models and boundaries of media history. A fundamental part of her argument is that these media industries have been intertwined for decades and as such cannot be considered separately. Instead, film, cable, and broadcast must be understood in relation to one another as critical components of a common history. *Empires of Entertainment* is a unique account of deregulation and its impact on political economy, industrial strategies, and media culture at the end of the twentieth century. **SEC Docket** United States Securities and Exchange Commission, 1994 *The Digital Globalization of Entertainment* Paolo Sigismondi, 2011-08-31 In this volume, Paolo Sigismondi explores the

dynamics of global media and entertainment specifically analyzing the implications of the global rise of non scripted entertainment as reality TV programs and the impact and consequences of the Information and Communication Technology ICT revolution on the content delivery platforms and overall business models of the media and entertainment landscape This work aims at bridging the gap between media theories and industry practices in a rapidly evolving global mediascape building on scholarship in the field and enriched by case studies and insights from business practice This work demonstrates that the paradigms of the landscape are shifting introducing the digital glocalization of entertainment through which successful media crossing national and cultural borders incorporate both global and local features Key questions raised include Is the ICT revolution an example of disruptive technology for the global media and entertainment industry Is the existing status quo challenged and in particular Hollywood s global leadership What are the global entities emerging as Hollywood s main competitors in this technologically evolving landscape Sigismondi argues that as new players are entering the field new threats to Hollywood s dominance are emerging The global leaders in non scripted entertainment for example are European based global entities operating outside the Hollywood system Meanwhile the ICT revolution is modifying the contours and boundaries of the global mediascape Sigismondi s approach provides unique insight into how the forces of technology and globalization are transforming television cinema and online entertainment
