

ON HEROES, HERO-WORSHIP AND THE HEROIC IN HISTORY

ANNIE RUSSELL MARBLE, THOMAS CARLYLE

American Heroes Hero Worship

Sheila Gerami

American Heroes Hero Worship:

American Heroes and Hero-worship Gerald White Johnson,1941 **American Heroes in a Media Age** Susan J. Drucker,Robert S. Cathcart,1994 This volume explores the relationship of hero to celebrity and the changing role of the hero in American culture It establishes that the nature of hero and its function in society is a communication phenomenon which has been and is being altered by the rapid advance of electronic media *The Hero in America; a Chronicle of Hero-worship. With Headings by Woodi Ishmael* Dixon Wecter,1941 *The American Catalogue* ,1908 American national trade bibliography **Total Mobilization** Roy Scranton,2019-07-30 Since World War II the story of the trauma hero the noble white man psychologically wounded by his encounter with violence has become omnipresent in America s narratives of war an imaginary solution to the contradictions of American political hegemony In *Total Mobilization* Roy Scranton cuts through the fog of trauma that obscures World War II uncovering a lost history and reframing the way we talk about war today Considering often overlooked works by James Jones Wallace Stevens Martha Gellhorn and others alongside cartoons and films Scranton investigates the role of the hero in industrial wartime showing how such writers struggled to make sense of problems that continue to plague us today the limits of American power the dangers of political polarization and the conflicts between nationalism and liberalism By turning our attention to the ways we make war meaningful and by excavating the politics implicit within the myth of the traumatized hero *Total Mobilization* revises the way we understand not only World War II but all of postwar American culture **The Image** Daniel J. Boorstin,2012-05-09 Daniel J Boorstin s prophetic vision of an America inundated by its own illusions is an essential resource for any reader who wants to distinguish the manifold deceptions of our culture from its few enduring truths The book that best explains Trump s dominance may well have been published in 1962 In *The Image A Guide to Pseudo Events in America* the historian Daniel J Boorstin described the image as a medium a photograph a movie a representation of life laid out on pulp or screen that becomes soon enough a habit of mind The Atlantic Boorstin s book tells us how to see and listen and how to think about what we see and hear George Will First published in 1962 this wonderfully provocative book introduced the notion of pseudo events events such as press conferences and presidential debates which are manufactured solely in order to be reported and the contemporary definition of celebrity as a person who is known for his well knownness *Ends and Odds* Samuel Beckett,1976 A collection of one act plays **Standard Catalog for High School Libraries** ,1928 The 1st ed accompanied by a list of Library of Congress card numbers for books except fiction pamphlets etc which are included in the 1st ed and its supplement 1926 29 *No Citizen Left Behind* Meira Levinson,2012-04-23 While teaching at an all Black middle school in Atlanta Levinson realized that her students individual self improvement would not necessarily enable them to overcome their historical marginalization In order to overcome their civic empowerment gap students must learn how to reshape power relationships through public political and civic action **The Hall of Fame for Great Americans** Sheila Gerami,2024-06-14 The Hall of Fame for Great

Americans provides a window into the cultural changes taking place in the United States from the turn of the twentieth century into the twenty first This book is the first examination of the institutional and social history of America s first hall of fame from its dynamic opening in 1901 through its protracted decline in the late twentieth century and its brief return to relevancy in the early twenty first century It also examines in depth what is arguably the least studied project of Stanford White one of the most distinguished architects of the Gilded Age Originally designed for New York University s new campus in the Bronx the Hall of Fame once housed ninety eight bronze busts of men and women deemed great Americans within its elegant colonnade including the likes of George Washington Nathaniel Hawthorne Booker T Washington Susan B Anthony and Robert E Lee The Hall was conceived when the Great Man theory dominated American thought However as times changed challenges to ideas concerning greatness and heroism grew and heroes once celebrated were scrutinized for their flaws The monument is now a shell of its former glory and largely forgotten and the NYU campus that once housed the colonnade was eventually sold to Bronx Community College In 2017 following the violent demonstrations in Charlottesville Virginia by white supremacists attempting to prevent the removal of a monument to General Lee Andrew Cuomo then governor of New York thrust the Hall of Fame back into the limelight by ordering the busts of Lee and Stonewall Jackson to be removed This action joined a national trend to remove monuments deemed offensive Gerami argues that the rise and fall of this institution mirrors the nation s changing conception of what comprises a hero This biography of a public art memorial answers questions about the importance of art history and the cultural evolution of what it means to be great in America

This book delves into American Heroes Hero Worship. American Heroes Hero Worship is an essential topic that needs to be grasped by everyone, from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into American Heroes Hero Worship, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
