Biological Response To Planned And Unplanned Injuries:

Neural and Neuroendocrine Mechanisms in Host Defense and Autoimmunity C. Jane Welsh, Mary Meagher, Esther Sternberg, 2007-04-05 Psychoneuroimmunology is the study of interactions between the brain and the immune system This book provides a clearly written summary of behavioral neural and endocrine regulation of immune responses and of the effects of immune system activity on neural and endocrine functions and behavior The underlying premise is that the brain and immune system represent a single integrated system of defense

Acute Kidney Injury Claudio Ronco, Rinaldo Bellomo, John A. Kellum, 2007-01-01 Acute kidney injury is defined as an abrupt change in serum creatinine and or urine output and a majority of patients admitted to the ICU have some evidence of the disorder Unfortunately treatment for this complex syndrome is as yet lacking and understanding is limited An interdisciplinary panel of experts has contributed to this volume illuminating some of the fundamental and complex aspects of the disorder ranging from pathophysiology to treatment from emerging biomarkers to genetic polymorphisms Other contributions focus on immunological issues or the many complications of acute kidney injury and co morbid conditions encountered covering the fundamentals as well as the latest developments Moreover important technical aspects of extracorporeal therapies including vascular access anticoagulation or fluid composition are introduced and different approaches to renal support from intermittent dialysis to continuous therapies and hybrid techniques are discussed A description of advanced extracorporeal techniques of organ support and their role in the management of sepsis and acute kidney injury in the context of an overall strategy of multi organ failure management concludes the discussions This volume not only provides a practical and up to date summary of current knowledge and technology but also imparts a fundamental understanding of the pathogenesis and likely future developments in this field It also serves to challenge and re examine the fundamental underlying assumptions we hold regarding critical illness in general and acute kidney injury in particular
