Breadlines Knee-Deep in Wheat Janet Poppendieck, 2014-04-26 At no time during the Great Depression was the contradiction between agriculture surplus and widespread hunger more wrenchingly graphic than in the government's attempt to raise pork prices through the mass slaughter of millions of unripe little pigs. This contradiction was widely perceived as a paradox. In fact, as Janet Poppendieck makes clear in this newly expanded and updated volume, it was a normal, predictable working of an economic system rendered extreme by the Depression. The notion of paradox, however, captured the imagination of the public and policy makers, and it was to this definition of the problem that surplus commodities distribution programs in the Hoover and Roosevelt administrations were addressed. This book explains in readable narrative how the New Deal food assistance effort, originally conceived as a relief measure for poor people, became a program designed to raise the incomes of commercial farmers. In a broader sense, the book explains how the New Deal years were formative for food assistance in subsequent administrations; it also examines the performance or lack of performance of subsequent in-kind relief programs. Beginning with a brief survey of the history of the American farmer before the depression and the impact of the Depression on farmers, the author describes the development of Hoover assistance programs and the events at the end of that administration that shaped the historical moment seized by the early New Deal. Poppendieck goes on to analyze the food assistance policies and programs of the Roosevelt years, the particular series of events that culminated in the decision to purchase surplus agriculture products and distribute them to the poor, the institutionalization of this approach, the results achieved, and the interest groups formed. The book also looks at the takeover of food assistance by the U.S. Department of Agriculture and its gradual adaptation for use as a tool in the maintenance of farm income. Utilizing a wide variety of official and unofficial sources, the author reveals with unusual clarity the evolution from a policy directly responsive to the poor to a policy serving mainly democratic needs. *The Journal of Agricultural Economics Research*, 1987

Sweet Charity? Janet Poppendieck, 1999-08-01 In this era of eroding commitment to government-sponsored welfare programs, voluntarism and private charity have become the popular, optimistic solutions to poverty and hunger. The resurgence of charity has to be a good thing, doesn't it? No, says sociologist Janet Poppendieck, not when stopgap charitable efforts replace consistent public policy and poverty continues to grow. In *Sweet Charity*, Poppendieck travels the country to work in soup kitchens and gleaning centers, reporting from the frontlines of America's hunger relief programs to assess the effectiveness of these homegrown efforts. We hear from the clients who receive meals too small to feed their families, from the enthusiastic volunteers, and from the directors who wonder if their successful programs are in some way perpetuating the problem they are struggling to solve. Hailed as the most significant book on hunger to appear in decades, *Sweet Charity* shows how the drive to end poverty has taken a wrong turn, with thousands of well-meaning volunteers on board. **On**

Divided Spirits Sarah Bowen,2015-10 Divided Spirits tells the stories of tequila and mezcal two of Mexico's most iconic products In recent years as consumers increasingly demand to connect with the people and places that produce their food the concept of terroir the taste of place has become more and more prominent Tequila and mezcal are both protected by denominations of origin DOs legal designations that aim to guarantee a product's authenticity based on its link to terroir Advocates argue that the DOs expand market opportunities protect cultural heritage and ensure the reputation of Mexico's national spirits Yet this book shows how the institutions that are supposed to guard the legacy of all Mexicans often fail those who are most in need of protection the small producers agave farmers and other workers who have been making tequila and mezcal for generations Divided Spirits suggests that we must move beyond market based models if we want to safeguard local products and the people who make them Instead we need systems of production consumption and oversight that are more democratic more inclusive and more participatory Page 4 of cover

Nile Nightshade Anny Gaul,2025-10-28 A cultural and culinary history of modern Egypt through the nation's beloved tomato By the end of the twentieth century the tomato indigenous to the Americas had become Egypt's top horticultural crop and a staple of Egyptian cuisine The tomato brought together domestic consumers cookbook readers and home cooks through a shared culinary culture that sometimes transcended differences of class region gender and ethnicity and sometimes reinforced them In Nile Nightshade Anny Gaul shows how Egyptians embrace of the tomato and the emergence of Egypt's modern national identity were both driven by the modernization of the country's food system Drawing from cookbooks archival materials oral histories and vernacular culture Gaul follows this commonplace food into the realms of domestic policy and labor through the hands of Egypt's overwhelmingly female home cooks As they wrote recipes and cooked meals these women forged key aspects of public culture that defined how Egyptians recognized themselves and one another as Egyptian
