Besson, Fatima-Zohra Mokrane, Romain-David Seban, Randy Yeh, 2022-03-11 **The Breakthrough of Kampfgruppe Peiper in the Battle of the Bulge** Hugues Wenkin, Christian Dujardin, 2024-06-30 Kampfgruppe Peiper was the spearhead of the German 6th Panzer Army in the Ardennes, responsible for clearing the way for the German tanks towards the Meuse and Antwerp. It was endowed with considerable firepower and brought together the most motivated veterans of the Third Reich. It had to rush forward without regard to its flanks, seizing the bridges over the Meuse before the American army had time to react. After a difficult start, the German armored column broke through the defensive curtain of GIs and set off on its mission. It had to cross the Ardennes, an easy-to-defend area that the American command used to gain time. One after the other, bridges were being blown in front of Peiper. His fuel ran out, and he found himself at a standstill, isolated on a promontory at La Gleize. Using combat reports from both sides, this book analyzes the events as they occurred, minute by minute, explaining the reasons for Peiper's failure, even though, on paper at least, he had everything he needed to win. Breakthrough Management for Not-for-Profit Organizations Howard H. Brown, Donald Ruhl, 2003-10-30 This comprehensive guide to managing in the not-for-profit sector is a twofold resource. The first part is a user-friendly textbook examining what is involved in producing mission-driven goods and services, how to manage the relationships of nonprofits with the private and public sectors, and how to operate in both external and internal environments. The second part is a practitioner's ready reference handbook complete with survival tips and action items. Mission-driven not-for-profit organizations pose unique challenges to leaders and managers. These challenges differ tremendously from the profit-driven requirements of the corporate world and are even greater when budgets are tighter. This comprehensive guide to managing in the nonprofit sector is a twofold resource. The first part is a user-friendly textbook examining what is involved in producing mission-driven goods and services, how to manage the relationships of nonprofits with the private and public sectors, and how to operate in both external and internal environments. Six case studies and end of

chapter reviews facilitate learning in this expanding field The second part is a practitioner s ready reference handbook complete with survival tips and action items
