Bridges To The Past An Adult Reflects On Childhood:

Bridges to the Past Kenneth E. Huffman, 2003 *Bridges to the Past* is an anthology of short stories involving Appalachian Mountain humor and serious events that profoundly affected the life of a boy and influenced him prodigiously as an adult. Chapter I *The Whimper Carter Tales* portrays in a vivid manner the art of storytelling. It brings the reader vis a vis with Winfrey Whimper Carter who epitomized Appalachian storytelling and imagination. Imagine a preacher re learning profanity because a lawnmower will not start. Alternatively a teenager thinking a snake bites him when he was actually shot. Humor is to life what blood is to the heart and Chapter I contains a huge dose of humor. In addition it is interspersed with historical facts which provide interesting reading. Chapter II *A Lad's Heroes* is a poignant true story of a small boy who develops a hero worship for two older cousins who served with Airborne units in World War II. This hero worship leads the lad into the United States Army and the Airborne. He too becomes a paratrooper as a memorial to his relatives one who was killed in action at the Battle of the Bulge. It is a story that any combat veteran or those interested in military history will enjoy. Chapter III *A Towheaded Boy and a Fifty Dollar Rooster* is an equally emotional story that contains some levity. This chapter describes the love and devotion that can develop between a boy and his pets; it further denotes how experiences in childhood may affect a person for life. Chapter IV *The Day of the Sermon* is a fictional account of a historical episode that shows the suffering of slaves in the ante bellum South without being academic. It also deals with a devout preacher having the courage to challenge the slave holders in his congregation to determine a way to free those in bondage. Chapter IV invites people to examine the memories of slavery and its effect on this nation. Chapter V *The Taking of a Deer* is a serious historical fiction account based on a true story of an underdog who was defended in court gratis by a wealthy and influential lawyer who once served as a Governor of Tennessee. It demonstrates that the laws of God and commonsense can prevail over laws and justice can be served to the underprivileged. Chapter VI *The Uncle Cad Tales* depicts humans as they actually exist. This entire chapter consists of humorous tales spoken by a real character who has never received any attention other than through those who have known him. Overall *Bridges* is a book that will be enjoyable to people of both sexes and all ages. Everyone regardless of social status will find something in *Bridges* that is fulfilling. It is down to earth and involves people who are not rich or famous but who are very entertaining.

Childhood, Memory and Autobiography in Holland R. Dekker, 2019-06-12 Between the 17th and 19th centuries auto biographers and diarists invented new ways to write about childhood and children. At the same time pedagogical ideas about child rearing changed. This book looks at the connection between these developments. Egodocuments can bring the past alive and allow us to sketch six intimate portraits. The second part of the book concentrates on the changes. Childhood became more highly valued as a phase of life. Children were taken more seriously. This is shown in chapters on child's play, punishment, wet nursing and independence. Around 1800 in diaries parents more openly grieved about the loss of a child which indicates both a change of literary conventions and changes in the way emotions were felt and

expressed Finally autobiographers wrote more and differently about their early years and developed new memory strategies Autobiographical texts are discussed within a wider cultural setting using paintings poetry pedagogical tracts and novels This book makes clear how changes in autobiographical style the concept of childhood and the working of human memory are connected

Horrifying Children Lauren Stephenson, Robert Edgar, John Marland, 2024-03-07 *Horrifying Children* examines weird and eerie children's television and literature via critical analysis memoir and autoethnography There has been an explosion of interest in the impact of children's television and literature of the late twentieth century In particular the 1970s 80s and 90s are seen as decades that shaped a great deal of the contemporary cultural landscape Television of this period dominated the world of childhood entertainment drawing freely upon literature and popular culture like the *Garbage Pail Kids* and *Stranger Things* and much of it continues to resonate powerfully with the generation of cultural producers fiction writers screenwriters directors musicians and artists that grew up watching the weird the eerie and the horrific the essence of 21st century Hauntology In these terms this book is not about children's television as it exists now but rather as it features as a facet of memory in the 21st century As such it is the legacy of these television programmes that is at the core of *Horrifying Children* The haunting of adults by what we have seen on the screen is crucial to the study This collection directly addresses that which scared us in the past inasmuch as there is a correlation between individual and collective cultural memory with some chapters providing an opportunity for situating existing explorations and understandings of Gothic and Horror TV within a hauntological and experiential framework

Psychoanalytic Reflections on Parenting Teens and Young Adults Anne J. Adelman, 2018-03-08 *Psychoanalytic Reflections on Parenting Teens and Young Adults* explores the rich multi-layered parent-child interactions that unfold during the period of separation and launching While this is a necessary transitional time parents inevitably experience feelings of loss and longing for the past as well as hope for the future With honesty humor and originality the book brings together the voices of psychoanalysts speaking frankly and not just as professionals but also as parents grappling with raising young adults in today's fast-paced world The contributors reflect on the joys regrets and surprises as well as the challenges and triumphs they experience as their children reach the threshold of young adulthood They address a wide range of topics relevant to parents and practitioners alike indeed to all those who are closely involved with the growth and maturation of today's youth Offering both a broad perspective and an intimate look at present-day parenting dilemmas the chapters focus on five main areas of interest raising youth in the digital age developmental difficulties evolving gender norms social concerns and finally the building of resiliency *Psychoanalytic Reflections on Parenting Teens and Young Adults* offers an alternative lens to consider the complex challenges parents face in raising today's teens and young adults replacing the customary notion of failure to launch with the concept of holding on with open arms The explorations in this book advance the idea that in the end these struggles are essential for growth buoyancy and wisdom It will appeal greatly to psychoanalysts and psychoanalytic psychotherapists as well as family
