Aviation Law Gerard Pucci,1981 Aviation Law, Fundamental Cases ,1977 *The Resolution of Inter-State Disputes in Civil Aviation* Luping Zhang,2022-01-06 In this book Dr Luping Zhang investigates dispute resolution mechanisms in international civil aviation with a primary focus on the functions of the International Civil Aviation Organization ICAO Council The ICAO was created as a result of the Convention on International Civil Aviation Chicago Convention laying the foundations for these dispute resolution mechanisms in international civil aviation although it neglected to cover economic regulations Over the years there has been a proliferation of bilateral Air Services Agreements ASA s and multilateral treaties With the advancement of aviation technology The Resolution of Inter State Disputes in Civil Aviation considers whether dispute resolution mechanisms should be modernised and if so what form this modernisation might take It explores this through five chapters the first chapter defines the scope of the research and introduces the methodology The second chapter traces the evolution of dispute resolution clauses under both multilateral air law treaties and bilateral ASAs with the most up to date data The third chapter analyses how disputes brought forward in relation to the treaties in Chapter II are resolved in practice The fourth chapter builds on empirical evidence to critically assesses the political and legal implications of settling international aviation disputes The final chapter proposes a model for reform based on this cumulative research introducing a proposal for amending rules and procedures in the ICAO as well as for the establishment of a new arbitral institution
