Telling Is Not Teaching Mike Thompson, 2017-07-30 Certified flight instructors are rarely educators Many see instruction as a stepping stone to the next level of their flight careers and assume that merely telling is the equivalent of teaching This mistake is detrimental to both students and the aviation industry Telling a student something has no bearing on actual learning True teaching requires a much deeper level of communication Veteran flight instructor and educator Mike Thompson applies principles of educational psychology to the FAA H 8083 9A Aviation Instructor's Handbook Using simple down to earth language Thompson examines how to enable genuine teaching by developing the student instructor

relationship Teaching is a human endeavor requiring an investment from student and instructor alike Initially it takes time to build a relationship with students but once it s established rates of engagement and retention increase True learning is then achieved Despite advances in educational technology the human brain continues to learn as it always has Thompson applies his knowledge of how people really learn and how to build effective student teacher relationships to provide flight instructors with skills they can use to encourage deep and advanced learning While primarily aimed at the aviation industry Thompson s no nonsense discussion of teaching and educational psychology is applicable in any instructional arena Aviation Instructor's Handbook, FAA-H-8083-9A, 2008 United States. maintenance instructors this Aviation Instructor's Handbook was developed by the Federal Aviation Administration FAA in cooperation with aviation educators and industry to help beginning instructors understand and apply the fundamentals of instruction. It provides up-to-date information on learning and teaching and how to apply this to the task of teaching aeronautical knowledge and skills to learners. Experienced aviation instructors will also find the information useful for improving their effectiveness in training activities. This book is a key reference tool to all the information necessary for operating as an authorized instructor and passing the Fundamentals of Instructing FOI FAA Knowledge Exam. Subjects covered include risk management and single pilot resource management, human behavior, the learning process, effective communication, the teaching process, assessments, planning instructional activity, instructor responsibilities, and professionalism and techniques of flight instruction. Appendices include a comprehensive bibliography of references, information on how to develop a test item bank, certificates and ratings, endorsements, and a personal minimums checklist. This new edition expands and updates the existing material, including scenario-based training relative to assessments, the submission process of an Airman Certificate and or Rating application through IACRA, and endorsements. It also incorporates new areas of safety concerns and technical information not previously covered, such as referencing the Airman Certification Standards ACS alongside the Practical Test Standards PTS, teaching practical risk management during flight instruction, and information for Remote Pilots. This book is the official FAA source for teaching flight and many test questions for the FAA Knowledge Exams for instructors come from this reference. Complete with chapter summaries, detailed full-color drawings and photographs throughout, and a glossary and index.

Aviation Instructor's Handbook, 2008, Provides aviation instructors with up-to-date information on learning and teaching and how to relate this information to the task of teaching aeronautical knowledge and skills to students. Experienced aviation instructors will also find the updated information useful for improving their effectiveness in training activities.

Aviation Instructor's Handbook (Federal Aviation Administration) Federal Aviation Administration, 2019-01-31. Designed for ground instructors, flight instructors, and aviation maintenance instructors, the Aviation Instructor's Handbook was developed by the Flight Standards Service Airman Testing Standards Branch in cooperation with aviation educators and industry to help beginning instructors understand and apply the fundamentals of instruction. This handbook provides aviation instructors with up-to-date information on learning and teaching and how to relate this information to the task of teaching aeronautical knowledge and skills to students. Experienced aviation instructors will also find the updated information useful for improving their effectiveness in training activities. While this handbook primarily uses the traditional term student to denote someone who is seeking certification in aviation, the accepted term in educational psychology is learners. This handbook supersedes FAA H 8083.9 Aviation Instructor's Handbook dated 1999.
