B17 Flying Fortreb Story:

B-17 Flying Fortress Units of the Eighth Air Force (part 2) Martin Bowman, 2013-01-20 The Boeing B 17 which has come to epitomise the American war effort in Europe took the fight to Germans from the late summer of 1942 through to VE Day Its primary operator in Western Europe was the Mighty Eighth who controlled 27 bomb groups for much of the war This second of two volumes covers the 14 Bomb Groups of the Third Air Division First hand accounts period photography profile artworks and nose art scrap views bring to life aircraft from each of the groups within the Third Air Division *B-17 Flying Fortress Restoration* Jerome J. McLaughlin, 2016-07-13 The arrival of the WWII B 17 bomber at the National Museum of the Mighty Eighth Air Force in January of 2009 initiated a great adventure for a group of warbird lovers from the nearby communities as they united to restore that B 17 The dream of the volunteers was to honor the WWII veterans of the Eighth Air Force some of whom were literally their fathers by restoring the B 17 to its original pristine condition The group was challenged by the fact that the airplane had been in storage for more than two decades following a long working life and was far from the gleaming symbol of power that it had been in 1945 This book is the story of the six year effort by a team of volunteers to overcome the challenges they faced and to fulfill their dream to create a lasting symbol to honor their fathers and grandfathers and all of the veterans who served in the Mighty Eighth during WWII

B-17 Flying Fortress Frederick A. Johnsen, 2000 The B 17 pioneered the concepts of strategic bombardment This work gives technical detail along with little known facts and stories as well as accounts of missions production avionics development and the people behind the development of the B 17

The B-17 Flying Fortress Story Roger Anthony Freeman, David R. Osborne, 2000-03. The B 17 Flying Fortress was a major factor in the success of the Allied war against Germany. It was the epitome of a challenge faced, fought, and won, a powerful aircraft that achieved celebrity status and retained it through the war, operating extensively with the US 8th Air Force from bases throughout East Anglia.

Birth of a Legend LtCol Leon E. Braxton USAF, CAPT Arthur H. Wagner USCG, 2012-01-27. Competition for Army acquisition funding in the between wars depression years was fierce. The opposing camps of Fighter Supremacy versus Strategic Bombing played out at the Air Corps Tactical School, ACTS, at GHQ, before Congress, and in the media. Military exercises pitted the Navy and the Air Corps in operations with real cloak and dagger background gambits, each trying to gain the upper hand. When leaders such as Benjamin Foulois, Billy Mitchell, and Frank Andrews eventually were able to foster a bomber competition to replace the Martin B 10, Boeing's four engined Model 299 was a clear winner, but then it crashed at Dayton, and the Army opted for the Douglas B 18. Somehow Frank Andrews had enough faith in his convictions and managed to have 13 Y1B 17s produced and sent to the 2nd Bombardment Group at Langley Field, VA. There Robert Olds and his three squadrons enthralled the country with long range goodwill flights, transcontinental speed runs, with an obscure 1st Lt Curtis LeMay navigating the way, and a thrilling movie Test Pilot starring Clark Gable, Myrna Loy, and Spencer Tracy. Fortunately for the trials of WWII, these daring young men of the Army Air Corps put their careers on the line and made the B 17 one of the iconic weapons of that conflict. This is the untold story of the aircraft development and the men who made it happen.

Fighters and Bombers of World War II , A Bomber Pilot's Story Robert P. Neilson, 2016-09-15. Flying a B 17 Flying Fortress with the Fifteenth Air Force out of Foggia, Italy. Lt George H. Neilson describes the harrowing experiences of his twenty-eight combat missions, as well as the ups and downs of life in the US Army Air Corps from enlistment to discharge, 1943-45. Blending selections of his father's letters to home and memoirs he recorded a half century later, with documented background history, the younger Neilson tells the saga of the son of a Boston widow as he confronts the rigors of pilot officer training and combat service in

the Mediterranean Theater of Operations during the final six months of World War II in Europe George depicts the humorous and mundane sides of army life as well as the terror filled moments during bomb runs over targets in Austria Germany Czechoslovakia Poland Yugoslavia and Austria as antiaircraft flak bursts battered the aircraft Neilsons daily chronicles juxtapose moments when life and death hung in the balance such as when he landed his crippled Fort in the Adriatic Sea with the unexpected moments of splendor such as when he dined in luxury on the Isle of Capri at a castle owned by the royal family of Italy Flying in formation through clouds so thick that the plane thirty feet off his wing was invisible George received the Distinguished Flying Cross for his ability as a skilled instrument pilot He recounts youthful escapades on duty free hours and the tales of life in Foggias mud bound tent city in the spur of Italy It includes the stirring story of his visit to a field hospital where his brother a captain in the infantry was recovering from a bullet wound incurred in the fighting in the Apennine Mountain campaign Finally the story tells of World War IIs fiery end and how he unknowingly worked on the secret research project to develop the atomic bomb in a lab at MIT before enlistment For the student of history and aviation and its role in the Allied victory over Hitlers nefarious Reich this microhistory will not disappoint **The Inside Story of the Flying Fortress, Boeing B-17** James Ralph Ray, Jim Ray, 1943
