Photo-texts Andy Stafford, 2010-01-01 What do photographs want Do they need any accompaniment in today's image saturated society Can writing inflect photography or vice versa in such a way that neither medium takes precedence Or are they in constant inexorable battle with each other Taking nine case studies from the 1990s French speaking world from France North Africa and the Caribbean this book attempts to define the interaction between non fictional written text caption essay fragment poem and photographic image Having considered three categories of intermediality between text and photography the collaborative the self collaborative and the retrospective the book concludes that the dimensions of their interaction are not simple and two fold visuality versus alongside textuality but threefold and therefore complex Thus the photo text as defined here is concerned as much with orality the demotic the popular the vernacular as it is with visual and written culture That text image collaborations give space to the spoken spectral traces of human discourse suggests that the key element of the photo text is its radical provisionality

Monet, Narcissus, and Self-Reflection Steven Zalman Levine, 1994 Steven Z Levine provides a new understanding of the life and work of Claude Monet and the myth of the modern artist Levine analyzes the extensive critical reception of Monet and the artist's own prolific writings in the context of the story of Narcissus popular in late nineteenth century France Through a careful blending of psychoanalytical theory and historical study Levine identifies narcissism and obsession as driving forces in Monet's art and demonstrates how we derive meaning from the accumulated verbal responses to an artist's work

The Modern Essay in French Charles Forsdick, Andy Stafford, 2005 As a textual form the *essai* predominates in modern and contemporary literature in French Emerging from an earlier tradition and distinguished from its English language counterpart the French language essay ranges from Stéphane Mallarmé to Colette Victor Segalen to Aimé Césaire Jean Grenier to Pierre Michon The *essai* remains however one of the most hazily identified of textual forms its definition often depending on the progressive elimination of all other generic possibilities Excluded from the archigenres theatre poetry *roman* it can even be seen as a hold all category whose role is to absorb the anarchic extremes of writing It is perhaps this very lack of pretension to orthodoxy that has drawn so many writers to the *essai* The conventional understanding of the term as a tentative unsystematic exploration stresses the genre's provisional nature its refusal of any claims to comprehensiveness The *essai* exploits the devices of anecdote illustration and humour it is addressed to a wide and often general audience it is also intricately linked to the performance of ideological and writerly strategies often reordering the classical art of rhetoric and persuasion As the contributions to this volume show there is a need to outline an ethics and politics as well as poetics of essayism
