B 29 Superfortress Super Profile:

Boeing B-29 Superfortress William Wolf, 2005 Although many books have been published about the B 29 none has been an in depth look with most being either superficial pictorials or focusing on the bombing campaigns particularly the incendiary attacks and atomic bombings This book using rare previously unexplored sources intends to provide the definitive look at the bomber and crew detailing every facet for the air enthusiast historian and modeler The author was granted rare access to the Pima Air Space Museum s restored B 29 Sentimental Journey for inspection and photography resulting in the most extensive photographic documentation of the B 29 ever published The Pima Museum s archives filled with B 29 technical and crew manuals also gave the author extensive information that had not been previously published These sources the author s extensive personal library and microfilm resources enabled the author to produce this comprehensive look at the bomber and its crew in the context of the bomber s development and operational use It is truly monumental in scope both in words and photos

Aircraft of The Royal Australian Air Force Air Force History Branch, 2021-06-01 Aircraft of The Royal Australian Air Force tells the story of the RAAF s first one hundred years by describing the acquisition operation and service record of the multitude of aircraft types flown by the RAAF The 176 aircraft types include the flimsy wood and canvas aircraft typical of World War I through the technological advances during and after World War II to modern fifth generation complex aircraft like the F 35 Lightning II Even before its formation Sir Richard Williams the Father of the RAAF had decided to employ an alpha numeric numbering system to identify and account for each aircraft in service This system started with A1 A2 A3 etc as each type of aircraft came into service Each individual aircraft within each series was identified as A1 1 A1 2 and so on and the aircraft serial became known colloquially as the A number With some exceptions over the century since the A number system started aircraft entered RAAF service in broadly the sequence of the A numbers and so this book is intended to assist in charting the 100 year history of the RAAF by listing aircraft operated in A number sequence rather than by listing them by role such as Fighter Bomber Maritime Trainer Transport etc or alphabetically by name or by manufacturer The inclusion of a comprehensive Index and the Quick Reference Guide to aircraft by role is intended to facilitate the location of the entry for any specific type of aircraft for those who may not already know its A number Aircraft of The Royal Australian Air Force is a must have for all those who have served in the RAAF those with a passion for military aviation and aircraft in general and the broader members of the public wishing to gain an appreciation of the Royal Australian Air Force in its centenary year
