Added Value In Financial Institutions:

Entrepreneurship Walter Amedzro St-Hilaire, 2019-06-10 The ways in which enterprises are governed and entrepreneurship policies developed are the focus for the world leading research This is because entrepreneurial activities take place within a wider institutional environment in which a range of public private and societal institutions progressively shape the economy and society Therefore successful managers and entrepreneurs of tomorrow need to be able to identify those institutional practices that best facilitate innovation and encourage market competitiveness In addition managers should recognize opportunities to influence and collaborate with public economic and corporate governance institutions to benefit their own entrepreneurial activities This book *Entrepreneurship Strategies and Policies* introduces the various strategic actors their power relations and interactions and social ties and shows you how they are connected to entrepreneurship policies Key questions focus on institutional frameworks across the measures that should contribute effectively to the discussion and reforms that will develop entrepreneurship and boost growth and employment What are the limits of contemporary entrepreneurial strategies What are the perspectives and challenges of entrepreneurship strategies Which resilience measures are possible

Risk Management and Value Creation in Financial Institutions Gerhard Schroeck, 2002-10-01 An analysis of the links between risk management and value creation *Risk Management and Value Creation in Financial Institutions* explores a variety of methods that can be utilized to create economic value at financial institutions This invaluable resource shows how banks can use risk management to create value for shareholders addresses the advantages of risk adjusted return on capital RAROC measures and develops the foundations for a model to identify comparative advantages that emerge as a result of risk management decisions It is the only book needed for banking executives interested in the relationship between risk management and value creation

Islamic Management Practices in Financial Institutions Khaliq Ahmad, 2021-12-30 This book draws on a range of theoretical foundations approaches and management practices that are culturally and jurisdictionally appropriate in several Muslim countries As such it contributes to an emerging specialism in comparative management and leadership theory that is oriented toward a broader and more diverse set of perspectives particularly from the non Western world given that the importance of values ethics and culture have recently been recognized as a key contributing factor to management knowledge development The author offers an in depth overview of the Islamic management strategies that have successfully been implemented in selected Malaysian banking and non banking financial institutions and then outlines how the application of such strategies leads to increased integrity efficiency and performance The book is divided into three parts The first part deals with the introduction historical background and methods used in collection of data The second part consists of a range of real world case studies while part three deals with the approaches to be used in the teaching of these cases followed by conclusions and recommendations These cases studies map the strategic aspects of organizational structure and illustrate the motives that influence Malaysian

managers choices in seeking specific responses to the situations at hand which are in harmony with the traditions in Islamic inquiry As such management scholars can build a foundation for conceptual and theoretical propositions relevant to Muslim culture and environment that will have practical significance The book provides a wealth of information and enables researchers not only to identify the determinants of knowledge structure and its context but also the evolution of practice

Handbook on Corporate Governance in Financial Institutions Christine A. Mallin,2016-05-27 The global financial crisis has led to more and more focus on corporate governance and financial institutions There has been much coverage in the media about various corporate governance related issues in banks and other financial institutions such as executive directors remuneration and bankers bonuses board composition and board diversity This book dedicated to the corporate governance of banks and other financial institutions makes a timely and accessible contribution to the literature in this area The contributors are experts in their field with in depth knowledge of the various countries including Italy the UK Germany the US China Japan Brazil Russia Australia and Nigeria plus a chapter on Islamic financial institutions covered in this book Overall the engagingly written chapters highlight many of the shortcomings of corporate governance which have led to financial scandals whilst indicating areas where corporate governance can be strengthened and improved Adding depth and accessibility to existing corporate governance books this Handbook is ideal as a teaching and learning tool for undergraduate and postgraduate students For directors and the general business and wider stakeholder communities concerned with corporate governance it is an essential resource Contributors C L Ahmadjian K J Chang M J Conyon F Cuomo H Farag L He H Y Liang I Love C A Mallin C Ogbechie B Okhunjanov G Pearson S Prigge R F Schiozer O K Tam P R S Terra A Zattoni

Competitive Implications of the Financial Institutions Safety and Consumer Choice Act of 1991 United States. Congress. House. Committee on the Judiciary. Subcommittee on Economic and Commercial Law,1992 *Financial Institutions and Social Transformations* David Knights,Tony Tinker,2016-07-27 This book seeks to draw together a series of theoretical and empirical contributions from several countries including the US Japan the UK and Germany The chapters differ from a majority of writings on the financial sector in that they are not dominated by economic or finance issues but are concerned with social or sociological implications conditions and consequence of current charges in financial services **Low-Carbon**

Economy and Sustainable Development: Driving Force, Synergistic Mechanism, and Implementation Path Zhen Liu, Wang Pei, Jing Lan,Jingchao Zhang,2024-11-25 In recent years with global economic development and population growth environmental issues have become increasingly prominent Climate change and energy crisis have become global problems that restrict human development and so need to be solved urgently As a comprehensive economic development model the low carbon economy can greatly reduce energy and resource consumption mitigate and adapt to climate change promote economic development and thus achieve the goal of sustainable development Therefore exploring efficient paths toward sustainable development through carbon reduction is an urgent and challenging research topic currently This Research Topic

aims to conduct scientific research and exchange from the perspectives of clarifying the drivers behind carbon reduction investigating the synergistic mechanism between the low carbon economy and sustainable development and then exploring the pathways to low carbon development Through comprehensive research and comparative analysis of the relationship between low carbon economy and sustainable development we will verify the feasibility of innovations and updates of carbon reduction applications for sustainable development provide scientific strategies in terms of low carbon economy for sustainable development design technical routes and propose corresponding policy recommendations

Developing People and the Corporate Culture in Financial Services Vlad Stanic, Denis Boyle, 1999-05-20 To succeed in fast moving markets financial services organizations have to manage change in organizational culture in order to harness the commitment as well as the competences of their human resources Changing the corporate mind is a fundamental survival skill for the new leaders as well as the basis for market dominance in the future Developing people and the corporate culture in financial services describes the personal views and direct experience of practitioners working with a variety of organizations It focuses on the fundamental requirements for transforming corporate cultures and describes the ways to bring out the best efforts and commitment of the people employed

Neoliberalism in the Emerging Economy of India Byasdeb Dasgupta, Archita Ghosh, Bishakha Ghosh, 2021-07-07 Neoliberal economic reforms over the last four decades have altered the economic cartography of emerging market economies such as India particularly in the context of international trade investment and finance and in terms of their effects on the real economy This book examines the issues of financialization investment climate and the impact of trade liberalization By analysing these three features of neoliberal reform the book is unique since it accommodates both a mainstream neoclassical approach and a non mainstream political economy approach The major questions answered by this book cover three basic lines of enquiry pertaining to neoliberal reforms They are a how financialization as a new process affects the real economic health of emerging market economies characterized by globalization b how the changing form of international trade in the new regime impacts upon the informal economy and employment and trade potential in the home country and c how global investment has shaped the real economy in emerging countries like India The book will be extremely useful for postgraduate students of international economics particularly development economics and political economy including researchers with a keen interest in India

Banking in Switzerland Niklaus Blattner, Hans Genberg, Alexander Swoboda, 2012-12-06 Oliver Landmann Nobody needs to be convinced of the importance of banking for the Swiss economy The financial sector grew well above average in the past decade and now accounts for almost 10 % of GDP Compared to the economy wide average it creates more than double as much value added per employee and it is a major contributor to Swiss export revenues But this is no cause for complacency The industry is subjct to rapid change as the competitive climate has become rougher nationally and internationally Major structural weaknesses have come to the surface which raise serious questions about the extent of the required structural

adjustments Thus banking was an ideal candidate for a major case study in the framework of the National Research Programme No 28 which is devoted to Switzerland's external economic challenges The programme was commissioned by the Swiss government and is carried out by the Swiss National Science Foundation The research project on the financial sector was directed by Professors Niklaus Blattner Hans Genberg and Alexander Swoboda who assembled a team of research economists from the Graduate Institute of International Studies the International Centre for Monetary and Banking Studies both at Geneva and the Labour and Industrial Economics Research Unit at the University of Basel This joint research effort has yielded an impressive crop of descriptive data analytical insights and policy oriented conclusions
