Addiction Experience:

The Bible and the Addiction Experience Christopher Gaskin, 2024-06-04 Addicts are often referred to as fiends and although we use the word fiend ever so casually the average person is clueless as to what the word actually means The dictionary defines the word fiend as a devil a demon or evil spirit which raises the question as to how exactly are devils demons and evil spirits synonymous with the addict Believe it or not these definitions arose from the idea that the addict is actually an incarnate demon helplessly possessed by his own evil spirit called the fiend who tempts him from within to postpone his resolve for recovery and proceed to feed his insatiable appetite for drugs against his better judgment Hence the reason why the relapse rate for addiction is so high is because as demonically possessed souls addicts are in need of an exorcism rather than the ineffective methods of conventional treatment that fails to address the real issue In a serendipitous turn of events the addict can now reference *The Addiction Experience* where he is instructed by the master exorcist from whom he receives the authority to cast out his inner demon and get clean once and for all

An Existential Phenomenology of Addiction Anna Westin, 2020-02-20 Existential phenomenology can be a particularly helpful philosophical method for understanding human experience Starting from the perspective of the subject it can clarify and problematize subtle everyday relations enabling greater insight into difficult situations Used by contemporary philosophers as a way of understanding the embodied experience of illness this method has been helpful for understanding physical illness in the medical humanities offering a fruitful way of reading the subjectivity of mental states *An Existential Phenomenology of Addiction* examines how the experience of addiction engages both mental and physical phenomena within the existence of a particular human life using the philosophy of Emmanuel Levinas and Søren Kierkegaard The book maps out an existential phenomenology of subject in relation Both Levinas and Kierkegaard use decidedly psychological and theological language to situate their philosophy discussing the subject through concepts of love otherness responsibility and hope while played out in a situation of anxiety suffering desire and revelation Combining existential phenomenological discourse with contemporary addiction discourse Westin argues that the concept of subject as addict as found in the Twelve Steps Program and disease models of addiction ought to be replaced with the free and relational identity of subject as addicted
