Adobe Walls:

Adobe Walls T. Lindsay Baker, Billy R. Harrison, 1986-04-04 In the spring of 1874 a handful of men and one woman set out for the Texas Panhandle to seek their fortunes in the great buffalo hunt. Moving south to follow the herds they intended to establish a trading post to serve the hunter or hide men. At a place called Adobe Walls they dug blocks from the sod and built their center of operations. After operating for only a few months the post was attacked one sultry June morning by angry members of several Plains Indian tribes whose physical and cultural survival depended on the great bison herd that were rapidly shrinking before the white men's guns. Initially defeated that attacking Indians retreated. But the defenders also retreated leaving the deserted post to be burned by Indians intent on erasing all traces of the white man's presence. Nonetheless, traces did remain and in the ashes and dirt were buried minute details of the hide men's lives and the battle that so suddenly changed them. A little more than a century later white men again dug into the sod at Adobe Walls. The nineteenth century men dug for profits but the modern hunters were looking for the natural time capsule inadvertently left by those earlier adventurers. The authors of this book, a historian and an archeologist, have dug into the sod and into far flung archives to sift reality from the long romanticized story of Adobe Walls, its residents and the Indians who so fiercely resented their presence. The full story of Adobe Walls now tells us much about the life and work of the hide men, about the dying of the Plains Indian culture and about the march of white commerce across the frontier. [Kit Carson and the First Battle of Adobe Walls](#) Alvin R. Lynn, 2014 Following two journeys Kit Carson's 1864 military expedition from Fort Bascom to Adobe Walls and Alvin Lynn's journey to document what happened are told. **Life and Adventures of "Billy" Dixon, of Adobe Walls, Texas Panhandle** Billy Dixon, 1914 William Billy Dixon scouted the Texas Panhandle for the Army, hunted buffalo for the train companies, defended the Adobe Walls settlement against Indian attack with his legendary buffalo rifle and was one of eight civilians in the history of the U.S. to receive the Medal of Honor. [Kit Carson at the First Battle of Adobe Walls](#) Roy F. Sullivan, 2015-10-09 The ruins of Adobe Walls, one-time saloon, fort, and trading post with the Plains Indians, was the 1864 site of the largest battle between the

Indian and the U S Army Some three hundred army troops mostly cavalry were led by famous western explorer Indian agent fighter and trapper Christopher Kit Carson Not only was it the largest battle between the Indian and U S Army it was the only time the army was forced to withdraw Why withdraw Because Carson and his New Mexico and California volunteers were outnumbered ten to one by their combined Kiowa Comanche and Arapaho enemy Had it not been for Carson s command ability a greater massacre than the Little Big Horn would have occurred

Ghost Towns of Texas T. Lindsay Baker,1991-02-01 The indefatigable T Lindsay Baker has now turned his enormous mental and physical energies to the subject and has brought to view if not to life eighty six Texas ghost towns for the reader s pleasure Baker lists three criteria for inclusion tangible remains public access and statewide coverage In each case Baker comments about the town s founding its former significance and the reasons for its decline There are maps and instructions for reaching each site and numerous photographs showing the past and present status of each The contemporary photos were taken in most instances by Baker himself who proves as adept a photographer as he is researcher and writer Baker has done his work thoroughly and well within limits imposed by necessity He obviously had fun in the process and it shows in his prose
