The Politics of Adoption Kerry O'Halloran, 2008-12-01 Adoption has always had a political dimension Its use to achieve political ends has been evident throughout history and in many different cultures In Roman times an emperor would adopt a successful general to 1 continue his rule In Ireland under the Brehon Laws the reciprocal placements of 2 children between clans was an accepted means of cementing mutual allegiances In Japan the adoption of non relatives was traditionally seen as a means of allying 3 with the fortunes of the ruling family The willingness of governments to use adoption as a political strategy was apparent for example in Australia where it was used to 4 further the assimilation of indigenous people It is now present in the phenomenon of intercountry adoption where the flow of children particularly in the aftermath of war is often politics by proxy Adoption can be profoundly affected by politics as demonstrated by the decision of the Chinese government to advocate one child families which resulted in very many Chinese girls being relinquished for adoption abroad as their parents exercised a preference for a male child Again as in Korea in the recent past c rently in some South American countries and in those states of eastern Europe newly emerged from under the blanket of totalitarianism governments can and do facilitate an outward flow of children for reasons of economic and political 5 expediency
