The Adventure of the Solitary Cyclist Sherlock Holmes Arthur Conan Doyle, Sir, 2014-06-23 From the years 1894 to 1901 inclusive Mr Sherlock Holmes was a very busy man It is safe to say that there was no public case of any difficulty in which he was not consulted during those eight years and there were hundreds of private cases some of them of the most intricate and extraordinary character in which he played a prominent part Many startling successes and a few unavoidable failures were the outcome of this long period of continuous work As I have preserved very full notes of all these cases and was myself personally engaged in many of them it may be imagined that it is no easy task to know which I should select to lay before the public I shall however preserve my former rule and give the preference to those cases which derive their interest not so much from the brutality of the crime as from the ingenuity and dramatic quality of the solution For this reason I will now lay before the reader the facts connected with Miss Violet Smith the solitary cyclist of Charlington and the curious sequel of our investigation which culminated in unexpected tragedy It is true that the circumstance did not admit of any striking illustration of those powers for which my friend was famous but there were some points about the case which made it stand out in those long records of crime from which I gather the material for these little narratives
