Africa And The Middle East Conflict:

Africa and the Middle East Conflict Arye Oded, 2023 This book identifies the underlying historical political and economic factors that have shaped the attitudes of African states toward the Arab world and Israel **War and Conflict in the Middle East and North Africa** Ariel I. Ahram, 2020-09-29 For much of the last half century the Middle East and North Africa MENA has seemed the outlier in global peace Today Iraq Libya Israel Palestine Yemen and Syria are not just countries but synonyms for prolonged and brutal wars But why is MENA so exceptionally violent More importantly can it change Exploring the causes and consequences of wars and conflicts in this troubled region Ariel Ahram helps readers answer these questions In Part I Ahram shows how MENA s conflicts evolved with the formation of its states Violence varied from civil wars and insurgencies to traditional interstate conflicts and affected some countries more frequently than others The strategies rulers employed to stay in power constrained how they recruited trained and equipped their armies Part II explores dynamics that trap the region in conflict oil dependence geopolitical interference and embedded identity cleavages The catastrophic wars of the 2010s reflect the confounding effects of these traps culminating in state collapse and intervention from the US and Russia as well as regional powers like Iran Saudi Arabia and the UAE Finally Ahram considers the possibilities of peace highlighting the disjuncture between local peacebuilding and national and internationally backed mediation War and Conflict in the Middle East and North Africa will be an essential resource for students of peace and security studies and MENA politics and anyone wanting to move beyond headlines and soundbites to understand the historical and social roots of MENA s conflicts *China and Middle East Conflicts* Guy Burton, 2020-07-30 How do aspiring and established rising global powers respond to conflict Using China the book studies its response to wars and rivalries in the Middle East from the Cold War to the present Since the People s Republic was established in 1949 China has long been involved in the Middle East and its conflicts from exploiting or avoiding them to their management containment or resolution Using a conflict and peace studies angle Burton adopts a broad perspective on Chinese engagement by looking at its involvement in the region s conflicts including Israel Palestine Iraq before and after 2003 Sudan and the Darfur crisis the Iranian nuclear deal the Gulf crisis and the wars in Syria Libya and Yemen The book reveals how a rising global and non Western power handles the challenges associated with both violent and nonviolent conflict and the differences between limiting and reducing violence alongside other ways to eliminate the causes of conflict and grievance Contributing to the wider discipline of International Relations and peace and conflict studies this book will be of interest to students and scholars of peace and conflict studies Chinese foreign policy and the politics and international relations of the Middle East

Conflicts in the Middle East and Africa Moosa Elayah, Bakeel Alzandani, 2024-03-21 This book explores the multifaceted dynamics between state and non state actors in public policy during and after conflict in the Middle East and Africa It offers case studies and policy relevant ideas for conflict affected areas to move forward in a more sustainable

manner Following the Arab Spring revolutions civil wars have plagued the Middle East and North Africa region along with other countries in Africa The task of rebuilding peace and institutionalizing stability in conflict affected countries or fragile states emerging from conflict is a daunting uncertain and context specific task Yet focusing on understanding conflicts in the Middle East and Africa offers an important view of the role of non state actors during conflicts These regions feature the highest numbers of inter and intra state conflicts and the governments are more often contested than in the rest of the world The volume proposes different cases addressing the fundamental challenge of inclusion and cohesion of nonstate actors during conflicts By providing a comprehensive exploration of diverse perspectives it empowers readers to engage with the pressing issues facing these regions This is a useful resource for students and researchers in public policy and governance studies development studies and NGOs and Middle East and African Studies *Africa and the War on Global Terrorism* United States. Congress. House. Committee on International Relations. Subcommittee on Africa,2001

Comparing Armed Conflicts Bruno Charbonneau,Adam Sandor,2021-07-12 Comparing armed conflicts primes the production of categories that when mobilized can alter the trajectories of the conflicts Considering the political dynamism of spaces of conflict and intervention and that practitioners regularly seek out academic expertise this book discusses the possibilities and limits of comparative approaches to understanding armed conflict and intervention Capacity building experts development workers international organizations and diplomats use their previous experiences and bring them into new contexts to understand and respond to their environment Conflict actors can also make comparisons to buttress their political position in negotiations consolidate their control over fighters and as calls for transnational rebel solidarity The use of such comparisons is an inherently political move and it has an impact on the production of scientific knowledge on conflict dynamics themselves and on the formulation and implementation of conflict management policy comparison is inherently a practice of order making While there are important epistemological and methodological stakes associated with researchers engaging in comparison there are also important productive effects connected to the research avenues taken The chapters in this book were originally published in the *Civil Wars War and Terrorism in Contemporary Africa* Bridey Heing,2016-12-15 War and Terrorism in Contemporary Africa investigates how African conflicts fit into both regional and global geopolitical landscapes The book profiles terrorist organizations rebel groups and governments engaged in hostilities within the continent and beyond War and Terrorism in Contemporary Africa also includes information about how these conflicts affect Africans day to day lives

Shocks and Rivalries in the Middle East and North Africa Imad Mansour,William R. Thompson,2020-06-01 Shocks and Rivalries in the Middle East and North Africa is the first book to examine issue driven antagonisms within groups of Middle East and North Africa MENA states and their impact on relations within the region The volume also considers how shock events such as internal revolts and regional wars can alter interstate tensions and the trajectory of conflict MENA has experienced more internal rivalries than any other region making a detailed analysis vital to

understanding the region's complex political, cultural, and economic history. The state groupings studied in this volume include Israel and Iran, Iran and Saudi Arabia, Iran and Turkey, Iran, Iraq, and Syria, Egypt and Saudi Arabia, and Algeria and Morocco. Essays are theoretically driven, breaking the MENA region down into a collection of systems that exemplify how state and nonstate actors interact around certain issues. Through this approach, contributors shed rare light on the origins, persistence, escalation, and resolution of MENA rivalries and trace significant patterns of regional change. *Shocks and Rivalries in the Middle East and North Africa* makes a major contribution to scholarship on MENA antagonisms. It not only addresses an understudied phenomenon in the international relations of the MENA region, it also expands our knowledge of rivalry dynamics in global politics.

Routledge Companion to China and the Middle East and North Africa Yahia H. Zoubir, 2023-05-16. Focusing on China's relations with the Middle East and North Africa, this Companion provides essential analysis of a complex region which threatens to become the battleground for rival powers in the future. The Routledge Companion to China and the Middle East and North Africa brings together China scholars from around the world, including from China, the MENA region, the United States, Asia, and Europe. The contributors, experts in their respective areas, which range from politics, military, and nuclear power to economics, energy, and tourism, use different methodologies to understand China's policies in the MENA. Topics analyzed include Chinese investment in infrastructure, the COVID-19 pandemic, and the Belt and Road Initiative. Divided into three parts, the book addresses China's multidimensional presence in the MENA and its impact on the region, while also explicating the MENA's relations with its traditional Western allies. Bilateral relations and people-to-people interactions are also explored and provide in-depth context to the areas of cooperation that are part of China's dealings with its partners in the region. Combining contemporary analysis with accessible prose, the book will be of interest to students, scholars, and policy makers active in international relations, security studies, and economics, as well to general audiences interested in the MENA region.

The International Dimensions of Internal Conflict Michael Edward Brown, 1996. Internal conflicts threaten many countries and regions globally. The first part of this book examines the sources of internal conflicts and the ways these may affect neighbouring states and the international community. The second part covers specific problems, policy instruments, and key actors.
