Africa Or Death:

The Death of Africa Peter Ritner, 1960 Analysis of the situation in Africa today and suggestions for an American policy

The West and China in Africa Alemayehu Mekonnen, 2015-11-13 The West and China in Africa Civilization without Justice is an outcome of Dr Alemayehu Mekonnen's personal intellectual struggle, life experience and an attempt to understand Christ and his message within the cultural context of Africa. The intellectual struggle has to do with the paradoxical reality of Africa's situation. An attempt to reconcile the seemingly irreconcilable situation of Africa tests and stretches anyone's mind beyond limit. According to archaeological and geological findings, Africa is the first habitat of humanity and yet it is the least habitable place in the world today. The continent is extremely rich with natural resources but it is known for poverty, disease, malnutrition and starvation. As some Afro-centric scholars argue, Africa is the birthplace of world civilization and yet it is known for destruction. Social instability is rampant, coup d'etat and counter coup d'etat is common. Displacement and the number of refugees are ever increasing. As a person of African origin and now a US citizen, Mekonnen was able to see realities objectively in the eyes of an African and American. This book explores the myth and reality of Western, Eastern and African dictators' role in the history of Africa.

Philosophy, Language, and Literature in an African Context Wilfred Lajul, 2024-12-16 Philosophy, Language and Literature in an African Context investigates the link between philosophy and language in African literature. Wilfred Lajul and the contributors argue that African literature is more than the desire of literary writers to entertain or provoke thought but rather a stylistic means through which they convey important information and philosophy. This book also probes into theories, contexts and moral language in African literature, exploring their implications for language use. The contributors analyze linguistic, philosophical and cultural worldviews of the African literary writers shown within their poetry, novels and plays. This book provides new ways of understanding the relationship between philosophy and language in African literature.

Conflicts in the Knowledge Society Sebastian Haunss, 2013-04-11 In *Conflicts in the Knowledge Society*, Sebastian Haunss demonstrates how conflicts relating to the international system of intellectual property have resulted in new cleavages in the knowledge society. Furthermore, he argues that new collective actors have emerged from these conflicts with the ability to contest the existing dominant order. With a focus on political opportunity structures, collective action networks and framing strategies, he combines a theoretical discussion of social change in the knowledge society with empirical analyses of four recent developments: software patents in Europe, access to medicines, Creative Commons licensing and Pirate Parties.

Marriage and Life After Death Anthony Onyekwe, 2015-01-29 In Africa, the emphasis on family marriage and offspring suggests that there is a kind of an unwritten ancestral law that imposes on every male the duty of begetting a son. The reason is because the core of African soteriology is centered on offspring. The predicament of the childless couples therefore stems

from the desire for immortality and salvation that culminates in the admission of the dead into the ancestral world This quest for salvation and immortality constitute social emotional psychological and spiritual problems for Christian as well as non Christian childless couples **The History of the Mohammedan Dynasties In Spain** Pascual De Gayangos,2025-08-09 Reprint of the original first published in 1843 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Official Year Book of the Union* South Africa. Office of Census and Statistics,1923 **Journey from Kilimanjaro** Hoover Liddell,2000-09-01 This book is about the youth schools places and ideas that significantly deepen my life It examines insights philosophies and observations that I read question seriously investigate and live The students in the classroom can be natural inquirers who through connections they discover make sense of the world and the things and ideas they pursue and question These students just as humankind from its beginning journey and exploration use a fundamental approach to observe investigate and probe to understand the world This is the source of our human depth and learning
