Adjusting The Balance Federal Policy And Victim Services:

Adjusting the Balance Steven R. Smith, Susan Freinkel, 1988-01-13 This book offers a unique comparative perspective on the development of service programs for victims of four major violent crimes: child abuse, spouse abuse, rape, and crimes against the elderly. The study analyzes the evolution of federal policy in each area and examines the ways in which federal initiatives and federal funding affected the focus and financial stability of victim service programs. This book argues that the four issues were profoundly affected by the public policy process; the varied definition of the issues shaped by ways in which public funding was distributed. The book takes a broad view of the policymaking process to include all branches of the federal government as well as state and local government, the courts, and voluntary grass roots organizations. While offering concrete information about four specific victims policies, the book also presents very important theoretical generalizations about the policymaking process and about the effect over time of that process on the definition and articulation of social problems in general.

Critical Victimology R. I. Mawby, Sandra Walklate, 1994-03-07 Drawing on a wealth of local, national, and international sources, unpublished documents, and original research, this book provides a theoretical and practical critique of victimology. The authors outline and discuss the issues facing victims today and address the fundamental question: How can we best ensure justice for victims while at the same time preserving the rights of defendants? The search for answers raises other key questions: What are the risks of crime, and do they vary from country to country? What is the impact of crime on the victim? How are victims treated by police, welfare agencies, and courts? Why have governments become interested in victims? Can we learn from the experiences of policies in other nations? H

Towards a Critical Victimology Ezzat A. Fattah,2016-07-27 Towards a Critical Victimology offers a serious challenge to the law and order perspective on victims rights and the false contest that is usually created between those rights and the rights of offenders It sheds light on the way victim initiatives emerged the timing of those initiatives their seemingly ulterior motives and the political interests they are meant to serve The Oxford Handbook of Public Management Ewan Ferlie,Laurence E.
