Hawley Grace Fogg-Davis

Adoption And Ethics:

The Morality of Adoption Timothy Patrick Jackson, 2005 The Religion Marriage and Family Series investigates marriage and family as major theological and cultural issues Given that both society and the church have debated these topics intensely but have actually studied them very little this series attempts to correct recent theological neglect of these important matters

Ethics in American Adoption Linda Anne Babb, 1999-05-30 Today in the United States there is a lack of consensus about what constitutes ethical practice in adoption Although ethics in adoption is a hot topic adoption specialists and professionals are unsure about how to serve the best interests of children who need to be adopted and how birth parents adoptive parents and adult adoptees ought to be served This failure to identify and prioritize ethical standards in adoption has resulted in a lack of ethical decision making and inadequate and sometimes fraudulent treatment of those seeking adoption related services Destined to be seminal in the fields of ethics and adoption this books offers numerous case studies describing what is wrong with America s adoption system illustrating what the lack of applied ethical standards in adoption does to adoptees and those who love them and raising many questions about what adoption facilitators are doing who is accountable for what they are doing and whose interests they are serving

The Ethics of Embryo Adoption and the Catholic Tradition Sarah-Vaughan Brakman, Darlene Fozard Weaver, 2008-04-08 The strength of this collection of essays is its careful consideration from a variety of perspectives within the Catholic tradition of the practice of embryo adoption It approaches the question in an open and reasonable way by allowing proponents of diverse positions within the tradition This method both sheds a great deal of light on the particular question and at the same time introduces the reader to the relevant general principles that guide Catholic moral thought

The Ethics of Transracial Adoption Hawley Grace Fogg-Davis, 2002 She believes that race should not be a barrier to adoption but neither should it be absent from the minds of prospective adopters and adoption practitioners

The Impact of Adoption on Members of the Triad Madelyn Freundlich, Joy Kim Lieberthal, 2001 The controversies in adoption have extended across a spectrum of policy and practice issues and although the issues have become clear resolution has not been achieved nor has consensus developed regarding a framework on which to improve the quality of adoption policy and practice This book is the third in a series to use an ethics based framework for analyzing and resolving these complex challenges in adoption while avoiding the divisiveness that has heretofore impeded their resolution This book presented in four parts focuses on the many ways that adoption may affect each member of the adoption triad Part 1 presents information on the historical context of adoption in the United States from colonial times through the current day Part 2 examines the impact of adoption on the adopted person and considers children s and adolescents adjustment and well being adolescents identity formation adult adoptees access to information and adoptees searches and reunions with biological parents Part 3 considers the impact of adoption on birth parents including the individual s sense of personal integrity and well being related to open adoption practices and involuntary termination of parental rights Part 4 examines the impact of adoption on prospective adoptive parents adoptive parents and adoptive families focusing on the psychological and social processes involved in becoming adoptive parents the processes involved in being approved to parent and issues related to adoptive parents right to adopt and decisions to adopt particular children Contains 394 references KB

Family-making Françoise Baylis, Carolyn McLeod, 2014 This volume explores the ethics of making or expanding families through adoption or technologically assisted reproduction For many people these methods are separate and distinct they can choose either adoption or assisted reproduction But for others these options blend together For example in some jurisdictions the path of assisted reproduction for same sex couples is complicated by the need for the partner who is not genetically related to the resulting child to adopt this child if she wants to become the child s legal parent The essays in this volume critically examine moral choices to pursue adoption assisted reproduction or both and highlight the social norms that can distort decision making Among these norms are those that favour people having biologically related children bionormativity or that privilege

a traditional understanding of family as a heterosexual unit with one or more children where both parents are the genetic biological legal and social parents of these children As a whole the book looks at how adoption and assisted reproduction are morally distinct from one another but also emphasizes how the two are morally similar Choosing one the other or both of these approaches to family making can be complex in some respects but ought to be simple in others provided that one s main goal is to become a parent Child Welfare for the Twenty-first Century Gerald P.
