## **Aesthetic Dimensions Of Religious Education:**

**Aesthetic Dimensions of Religious Education** Gloria Durka, Joanmarie Smith, 1979-01-01      **The Aesthetic Dimension in Redefining Religious Education** Maria Harris, 1971 ABSTRACT      *International Handbook of the Religious, Moral and Spiritual Dimensions in Education* Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

**And We Shall Learn through the Dance** Kathleen S. Turner, 2021-07-28 Liturgical dance is a way to present reflect instruct learn study and share religious beliefs with one's self within one's worship community and with one's God Such a belief is confirmed and witnessed within a variety of religious settings throughout the world from the beginning of time to this present age However there is a vacuum of resources that connect liturgical dance within the Christian context as a tool for religious learning within the field of religious education With the continual rise of liturgical dance as an artistic form of expression this book proposes that liturgical dance offers unique attributes conducive to the teaching and learning of faith and to faith formation Kathleen S Turner shows how liturgical dance is religious education in two very important ways first by addressing the power and potential liturgical dance has in nourishing the faith life of Christian congregants through means that are both educative and reflective and second by giving examples of how liturgical dance can be implemented as a

religious education tool within the teaching life of the church

**Education: Its History and Philosophy** Kenneth O. Gangel, Warren S. Benson, 2002-03-05 A history of Christian education must not be confused with a record of the achievements of the Sunday School The discipline has advanced well beyond that stage and today's sophisticated students fully understand that no proper concept of the history and philosophy of Christian education can be gained without seeing all the ramifications implications and influences that have affected it from pre-Christian times to the present So Drs Gangel and Benson have written this book a historical flow of philosophical thought from a Christian point of view Its focus is cultural biographical discussing each philosophy in its particular socio historical setting and giving special attention to significant individuals The format is chronological beginning with education in biblical times working upward through history to arrive at the present and beyond raising questions and issues for the future

*Educating Religious Education Teachers* Jenny Berglund, Bert Roebben, Peter Schreiner, Friedrich Schweitzer, 2023-07-10 International knowledge transfer in religious education RE is still a fairly new topic Many scholars in the field consider this discussion of prime importance for the future of both the academic discipline of religious education and the related school subject RE This book continues this discussion and specifies it in the direction of teacher education Its focus is on the challenges that teacher students and their trainers are facing in the light of RE in a pluralized and detraditionalized society The impact of these challenges on RE research is obvious However international exchange of research results for purposes of comparison and mutual enrichment is still rare This book provides insights that can encourage and facilitate this exchange

**The Logic of the Spirit in Human Thought and Experience** Keith J White, Dana R Wright, 2015-02-26 In March 2012 a small consultation convened on the campus of Princeton Theological Seminary where James E Loder Jr had served for forty years as the Mary D Synnott Professor of the Philosophy of Christian Education Members from the Child Theology Movement had begun to read Loder's work and they wanted to go further So they invited former students of Loder's to meet with them for conversations about things that really mattered to them and to Loder human beings and especially children the church's witness to the gospel of Jesus Christ and discerning the work of Spiritus Creator in the postmodern world The conversations proved rich and rewarding and some would even say they took on a life of their own serious scholarship set to the music of the Spirit's communion creating artistry forming new relationships inspiring new ideas and sustaining all of it amid much laughter joy and hope These essays taken from the papers delivered at the consultation are offered as a means of extending that conversation inspired by Loder's interdisciplinary practical theological science and his discernment of the **Sharing Faith** Thomas Groome, 1998-11-23 Provides a comprehensive introduction to all aspects of religious education and pastoral
